The New Ballgame Russell A. Carleton, 2023-06-13 Watching a game of baseball today means witnessing phenomena that would have been novel if not completely unheard of not so long ago Starting pitchers sling 100 mile per hour heat for just four or five innings before departing third basemen often station themselves much closer to second to say nothing of the shortstop s whereabouts home runs and strikeouts dominate at bats all while the length of contest tips toward the four hour mark There s no getting around it the game looks different now And as Major League Baseball scrambles with rule changes equipment modifications labor negotiations and more fans are left grasping for the true essence of this beloved pastime among the moving pieces In *The New Ballgame* Russell Carleton The Shift deftly indentifies and examines the many levers and inflection points that have shaped the game into what we see on the field today Through a singular blend of statistical analysis history and cognitive science readers will trace the rapid evolution of the modern game while contemplating the sport in an entirely new way Blending incisive research with affable storytelling Russell Carleton delivers a kaleidoscopic view on modern baseball in this welcome revelatory work

Baseball Prospectus The BP Team of Experts on Baseball Talent, 2004-02. The best. The Oakland As heralded General Manager Billy Beane calls Baseball Prospectus the standard by which all scouting guides should be measured. Jayson Stark at ESPN says, "I never cease to be blown away by the geniuses at Baseball Prospectus. When I have a question about a player, no matter how obscure, I pull out Baseball Prospectus." Rob Neyer at ESPN.com. And John Hunt, who covers fantasy baseball for USA Today, calls it the best book for preparing for a rotisserie draft. Packed with statistics, analysis, and attitude for the information age, Baseball Prospectus is the essential guide for the 3.4 million serious fantasy baseball players and the perfect game-side companion for millions more seamheads who want to understand the inside game. Why, for example, Derek Jeter's recent contract makes A-Rod's look like a bargain, why the hiring of Dusty Baker should end the Cubs' long nightmare, and why, if he remains healthy, Pedro Martinez has a legitimate shot at being remembered as the best pitcher ever. Baseball Prospectus gives in-depth, actual data and performance analysis of 1600 players, more than any other guide covering the majors and minors, the top 40 prospects, draft choices, and rookie ball. It features essays on every team and gimlet-eyed evaluations of at least 50 players per organization. It's the final word delivered in a wry and witty style on what pitchers and hitters really did in 2003 and how they'll do in 2004 and beyond.
