In addition to boxed material which provides insightful illustrations in every chapter, interesting anecdotes have been carefully weaved into the narrative of the text to engage the reader. Enhancements to the Global Edition include New Country Focus boxes that provide background on the political, economic, social or cultural aspects of countries grappling with an international business issue to help raise students' awareness of how national and geographic differences affect the conduct of international business, such as Corruption in the Philippines and the Export Processing Zone Authority of Pakistan. New Management Focus boxes that provide lively illustrations of the relevance of chapter material for the practice of international business, including Patenting Basmati Rice and Expatriate Managers. New Perspective boxes that provide additional context for chapter topics, such as Market Economy in China, Australian SMEs Embrace the Chinese Currency and Global Variations in Ownership Structure. , **Digital Marketing** Dave Chaffey, Fiona Ellis-Chadwick, 2019-02-05 Now in its seventh edition, *Digital Marketing* provides comprehensive practical guidance on how companies can get the most out of digital media and technology to meet their marketing goals. **How They Started Digital** David Lester, 2012-06-22 Bringing to life the stories behind the world's most successful digital businesses, *How They Started Digital* showcases profiles from gaming companies to social media brands. Giving insight and inspiration, each profile reveals how each idea originated and became the success it is today. **Global Meets Digital** Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends: Globalization and Digitalization, a business revolution unfolding in real time. *Global Meets Digital* captures the many nuances of this revolution succinctly, including its impact on our lives and business. An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years, such as diminishing returns to scale and resource scarcity, are no longer valid for a large and growing number of products and services. The book will challenge you to think differently, not just about digital products but also about physical products. In the global digital world, products are of three kinds: physical, digital, and smart machines—products that are both physical and digital and connected to the internet, a distinction missed by most books on strategy and global business. The economics of each kind of product is distinct from that of the others, which has strategic implications for all kinds of businesses, implications such as how to compete and how to create and capture value. With several mini case studies and over 100 company examples, the book covers themes and cutting-edge issues like the paradox of globalization, digital disruption, disruptive business models, exponential technologies, Internet of Things, competition in

digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta
