Musicking TikTok Juan Bermúdez, 2024-12-12 This ethnographic work about TikTok's musicking in a global Austrian context complements and builds upon ethnomusicological assumptions, theories, and methods for the study of musical practices in digital spaces. An overview of elements that make up TikTok's interface as well as the technical performative possibilities that it allows, this book introduces a general categorization of existing performance types and how TikTokers appropriate the platform to make their music. It illustrates how some TikTokers became aware of and began using TikTok and it reviews some of the different strategies TikTokers apply to learn how to use the application and successfully develop their performances. Bermúdez explores how performers move from being ordinary users to becoming TikTokers, developing and performing an identity he calls TikTok Persona. Moreover, he discusses how some TikTok practices can and have occurred across multiple interconnected platforms and he examines how localities are articulated and negotiated in these contexts. Bermúdez argues for an understanding of musicking as a multimedia practice that different actors create and experience individually in everyday synchronous and asynchronous physical and digital situations. The so-called TikTokers create a sense of identity and community through their performances. This study suggests that a digital performance can be aside from a representation of reality, an integral part of it, serving as a fundamental space for constructing and performing identity.

The Authenticity Industries Michael Serazio, 2023-11-07 In recent decades authenticity has become an American obsession It animates thirty years worth of reality TV programming and fuels the explosive virality of one hot social media app after another It characterizes Donald Trump's willful disregard for political correctness and proofreading and inspires multinational corporations to stake activist claims in ways that few woke brands ever dared before It buttresses a multibillion dollar influencer industry of everyday folks shilling their friends with spon con and burnishes the street cred of rock stars and rappers alike But ironically authenticity's not actually real it's as fabricated as it is ubiquitous In *The Authenticity Industries* journalist and scholar Michael Serazio combines eye opening reporting and lively prose to take readers behind the scenes with those who make reality and the ways it tries to influence us Drawing upon dozens of rare interviews with campaign consultants advertising executives tech company leadership and entertainment industry gatekeepers the book slyly investigates the professionals and practices that make people products and platforms seem authentic in today's media culture and politics The result is a spotlight on the power of authenticity in today's media saturated world and the strategies to satisfy this widespread yearning In theory authenticity might represent the central moral framework of our time allaying anxieties about self and society culture and commerce and technology and humanity It

infects and informs our ideals of celebrity aesthetics privacy nostalgia and populism And Serazio reveals how these pretenses are crafted backstage for audiences consumers and voters
