The Presidency of Donald J. Trump Julian E. Zelizer, 2022-04-12 Leading historians

provide perspective on Trump's four turbulent years in the White House. The Presidency of Donald J. Trump presents a first draft of history by offering needed perspective on one of the nation's most divisive presidencies. Acclaimed political historian Julian Zelizer brings together many of today's top scholars to provide balanced and strikingly original assessments of the major issues that shaped the Trump presidency. When Trump took office in 2017, he quickly carved out a loyal base within an increasingly radicalized Republican Party, dominated the news cycle with an endless stream of controversies, and presided over one of the most contentious one-term presidencies in American history. These essays cover the crucial aspects of Trump's time in office, including his administration's close relationship with conservative media, his war on feminism, the solidification of a conservative women's movement, his response to COVID-19, the border wall, growing tensions with China and NATO allies, white nationalism in an era of Black Lives Matter, and how the high-tech sector flourished. The Presidency of Donald J. Trump reveals how Trump was not the cause of the political divisions that defined his term in office but rather was a product of long-term trends in Republican politics and American polarization more broadly. With contributions by Kathleen Belew, Angus Burgin, Geraldo Cadava, Merlin Chowkwanyun, Bathsheba Demuth, Gregory Downs, Jeffrey Engel, Beverly Gage, Nicole Hemmer, Michael Kazin, Daniel C. Kurtzer, James Mann, Mae Ngai, Margaret O'Mara, Jason Scott Smith, Keeanga-Yamahtta Taylor, and Leandra Zarnow.

Routledge Handbook on China-Middle East Relations Jonathan

Fulton, 2021-12-27. This handbook brings together a mix of established and emerging international scholars to provide valuable analytical insights into how China's growing Middle East presence affects intra-regional development, trade, security, and diplomacy. As the largest extra-regional economic actor in the Middle East, China is the biggest source of foreign direct investment into the region and the largest trading partner for most Middle Eastern states. This portends a larger role in political and security affairs as the value of Chinese assets combined with a growing expatriate population in the region demands a more proactive role in contributing to regional order. Exploring the effect of these developments, the expert contributors also consider the reverberations in great power politics as the United States, Russia, India, Japan, and the European Union also have considerable interests in the region. The book is divided into four sections: Historical and policy context; State and regional case studies; Trade and development; International relations, security, and diplomacy. This volume is an essential reference for scholars and policy makers in the fields of international relations, political sociology, international political economy, and foreign policy analysis. Area studies specialists in Middle Eastern Studies, China Studies, and East Asian Studies will also find it an invaluable resource.
