Top Movies Box Office Deal:

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre, stars, and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through filmmaking factors that research suggests impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms. **Box Office**, 1959

Olson, Mariah Gumpert, 2017-06-15 Intended for AP focused American history high school students, this book supplies a complete quick reference source and study aide on the Great Depression and New Deal in America, covering the key themes, events, people, legislation, economics, and policies. The Great Depression and the New Deal remain key topics in American History that come up often as testing subject material. This book, comprising an introduction, encyclopedic A-Z entries, a chronology, thematic tagging, more than a dozen primary sources, Advanced Placement AP exam resources, and a bibliography, provides a complete resource for studying the themes, events, people, legislation, economics, and policy of the Great Depression and New Deal in America. It is ideally suited as a study resource for high school students studying to take the AP U.S. history course as well as undergraduates taking an introductory U.S. History survey course. **The Great Depression and the New Deal: Key Themes and Documents** supplies an easy to use guide to the central concepts, themes, and events of a pivotal era in American history that presents the Great Depression and New Deal in 10 thematic categories. While the focus of this book is on the AP course content itself rather than on the exam, it also features exam preparation specific content such as a sample documents based essay question, a list of Top Tips for answering documents based essay questions, and period specific learning objectives that are in alignment with the new fall 2014 AP U.S. History curriculum framework. **The Encyclopedia of Best Films** Jay Robert Nash, 2019-10-23 This all inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. In addition to a précis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated
