How To Save Money Hamilton Blanza,2018-10-17 Some people I just don't save money while others have saving accounts full to the brim What is the difference? Some people save and others just don't do it How to convert from a spender who can't save to a saver who can boast of saving money is just as much a financial thing as a personality thing I'll give you a type that can save money run through the thought process that the right financial personality is built in and you will but surely making money a financial thing The brain is like any other body part and it can be trained to become good at a thing For example you don't lose weight through dieting if you don't learn to drive a car in the first place The key to getting started is small and let me give you a very important mindset it is not about making huge savings all the time but immediately adopting a small win in the little things every little bit counts This principle is the most important thing about saving money Let me give you an example that 100 dollars put in a saving account will not do the trick especially if you are not a money saver Making a habit of saving a little bit every day or even a few dollars a month will help you build a habit which would turn into a big sum over a long time You have to train your brain to let it ring your financial bell to make saving a habit And like anything else in life you have to train your mind to learn from your mistakes and persevere to make saving a habit and part of your financial life It is a fruitful result I am sure with the introduction of this book you will have an idea of the core message that will be communicated to you
