Football and Manliness Thomas P. Oates, 2017-03-30 Women African Americans and gays have recently upended US culture with demands for inclusion and respect while economic changes have transformed work and daily life for millions of Americans The national obsession with the National Football League provides a window on this dynamic period of change reshaping ideas about manliness to respond to new urgencies on and beyond the gridiron Thomas P Oates uses feminist theory to break down the dynamic cultural politics shaping and shaped by today's NFL As he shows the league's wildly popular product provides an arena for media producers to work out and recalibrate the anxieties contradictions and challenges that characterize contemporary masculinity Oates draws from a range of pop culture narratives to map the complex set of theories about gender and race and to reveal a league and fan base in flux Though longing for a past dominated by white masculinity the mediated NFL also subtly aligns with a new economic reality that demands it cope with the shifting relations of gender race sexuality and class Indeed pro football crafts new meanings of each by its canny mobilization of historic ideological processes

Sports Fans, Identity, and Socialization Exploring the Fandemonium Adam C. Earnheardt, Paul M. Haridakis, Barbara S. Hugenberg, 2012-01-01. Once deemed an unworthy research endeavor the study of sports fandom has garnered the attention of seasoned scholars from a variety of academic disciplines. Identity and socialization among sports fans are particular burgeoning areas of study among a growing cadre of specialists in the social sciences. *Sports Fans Identity and Socialization* edited by Adam C Earnheardt Paul Haridakis and Barbara Hugenberg captures an eclectic collection of new studies from accomplished scholars in the fields such as communication business geography kinesiology media and sports management and administration using a wide range of methodologies including quantitative qualitative and critical analyses. In the communication revolution of the twenty first century the study of mediated sports is critical. As fans use all media at their disposal to consume sports and carry their sports viewing experience online they are seizing the initiative and asserting themselves into the mediated sports dissemination process. They are occupying traditional roles of consumers receivers of sports but also as sharers and sports content creators. Fans are becoming pseudo sports journalists. They are interpreting mediated sports content for other fans. They are making their voice heard by sports organizations and athletes. Mediated sports in essence provide a context for studying and understanding where and how the communication revolution of the twenty first century is being waged. With their collection of studies by scholars from North America and Europe Earnheardt Haridakis and Hugenberg illuminate the symbiotic relationship among and between sports organizations the media and their audiences. *Sports Fans Identity and Socialization* spurs both the researcher and the interested fan to consider what the study of sports tells us about ourselves and the society in which we live.
