

An oil painting depicting a tender moment between two men. The man in the foreground, with dark hair and a beard, is seen from the back, wearing a light blue t-shirt. He is embracing another man whose face is partially visible in profile. The background shows a cityscape with buildings and a bridge, rendered in a soft, painterly style with warm, golden light. The overall mood is intimate and romantic.

Enjoy Self-publishing Patty Jansen, 2024-12-03 I ve self published for over ten years I ve seen the industry start take off and mature I ve seen tactics companies and people come and go However over that time a few important principles have always held true but in the morass of advice of varying quality it can be hard to separate the wheat from the chaff In 2017 I wrote the Unboxed books a series of four books about how to publish sustainably and by that I mean in a manner so that you can keep doing it long term and how to use your mailing list to set up a self perpetuating sales vehicle While the strategies haven t changed many of the peripheral situations have In short we have far more and better tools but far more competition not only from other authors on the sales front but also from services that entice us to spend ever more money before we publish This book is my ultimate guide to what you need what you can try and what is likely to be a waste of your money and time Over more than 500 pages I talk about the unvarnished experience of self publishing and selling books while keeping control of my catalogue and not funding anyone s private jet in advertising costs I wrote this book to pay it forward to the community I don t sell courses I don t do affiliate marketing I have no vested interest in anyone s self publishing journey Except for this I want you to enjoy it

Sampling in Judgment and Decision Making Klaus Fiedler, Peter Juslin, Jerker Denrell, 2023-06-15 Sampling approaches to judgment and decision making are distinct from traditional accounts in psychology and neuroscience While these traditional accounts focus on limitations of the human mind as a major source of bounded rationality the sampling approach originates in a broader cognitive ecological perspective It starts from the fundamental assumption that in order to understand intra psychic cognitive processes one first has to understand the distributions of and the biases built into the environmental information that provides input to all cognitive processes Both the biases and restriction but also the assets and capacities of the human mind often reflect to a considerable degree the irrational and rational features of the information environment and its manifestations in the literature the Internet and collective memory Sampling approaches to judgment and decision making constitute a prime example of theory driven research that promises to help behavioral scientists cope with the challenges of replicability and practical usefulness 111
