The Future of Football Jon Garland, Dominic Malcolm, Mike Rowe, 2013-11-05 World football has undergone unprecedented change over the past decade On the field the richest European clubs have retained their pre eminence but with multinational playing squads backed up by global marketing industries Club ownership rests increasingly with impersonal shareholders rather than local business figures Domestic and international football competitions are being transformed by the financial power of the mass media The world s top players are paid far more than their peers from previous eras This volume covers a wide range of topical issues which football players fans and administrators will have to confront in the years to come

National Football League Franchises Frank P. Jozsa Jr., 2016-07-29 The National Football League NFL is the most influential popular and prosperous professional sports league in America As such this book focuses on the development and maturity of the organization and its members but most importantly how each of them performed in seasons and postseasons and then to what extent they have succeeded as a business enterprise despite competition for market share from other types of entertainment Each chapter contains two core themes as sections Team Performances and Franchise Business The former highlights which and how teams won division and conference titles and championships like Super Bowls while the latter lists and compares financial data including their revenue gate receipts and operating income By linking and comparing the historical performances of NFL teams to financial information about them as business organizations this book provides a unique contribution to the literature on the sports industry This book connects franchise popularity and all time records with recent estimated market value net worth and other financial data In sum National Football League Franchises explains why particular teams located in large midsize or small markets win more games and titles than others In addition it provides ways to individually and by division and or

conference to compare teams from a financial perspective

Digital Business Models Bernd W. Wirtz, 2019-04-02 The spread of the Internet into all areas of business activities has put a particular focus on business models The digitalization of business processes is the driver of changes in company strategies and management practices alike This textbook provides a structured and conceptual approach allowing students and other readers to understand the commonalities and specifics of the respective business models The book begins with an overview of the business model concept in general by presenting the development of business models analyzing definitions of business models and discussing the significance of the success of business model management In turn Chapter 2 offers insights into and explanations of the business model concept and provides the underlying approaches and ideas behind business models Building on these foundations Chapter 3 outlines the fundamental aspects of the digital economy In the following chapters the book examines various core models in the business to consumer B2C context The chapters follow a 4 C approach that divides the digital B2C businesses into models focusing on content commerce context and connection Each chapter describes one of the four models and provides information on the respective business model types the value chain core assets and competencies as well as a case study Based on the example of Google Chapter 8 merges these approaches and describes the development of a hybrid digital business model Chapter 9 is dedicated to business to business B2B digital business models It shows how companies focus on business solutions such as online provision of sourcing sales supportive collaboration and broker services Chapter 10 shares insight into the innovation aspect of digital business models presenting structures and processes of digital business model innovation The book is rounded out by a comprehensive case study on Google Alphabet that combines all aspects of digital business models Conceived as a textbook for students in advanced undergraduate courses the book will also be useful for professionals and practitioners involved in business model innovation and applied researchers

Winning the NFL Way Bob LaMonte, Robert L. Shook, 2009-03-17 Being an NFL coach is the ultimate high pressure job Every Sunday a coach makes split second decisions that will not only decide the fate of a game but also his team s season and ultimately his own job Meet Mike Holmgren Jon Gruden John Fox Andy Reid and Mike Sherman top NFL head coaches whose careers rest on their ability to lead other men to win in the fiercely competitive world of professional football In this extraordinary collaboration with their agent Bob LaMonte each of these five coaches shares his leadership principles LaMonte takes you behind the scenes where you ll be a fly on the wall as these men reveal how to win beyond the X s and O s You will see how these successful leaders communicate with different personalities develop vision build trust in their people and win loyalty as well as overcome adversity and adapt to change Through their colorful and motivational anecdotes you ll gain unprecedented insights into the minds of some of the best coaches today and valuable lessons on what it means to be a leader and a champion

Football in Neo-Liberal Times Peter Kennedy, David Kennedy, 2016-02-05 This book offers an original Marxist critique of the European football business It argues that the Marxist account of the difference between profits and surplus value is crucial to an understanding of the fluid and contradictory nature of the commodification of football Section one analyses the nature of modern professional football and section two highlights attempts via government agency and football clubs to corral fans into ever greater identification with business logic aimed at breaking traditional social relations Section three draws on a number of cases studies across Europe to analyse how some fans are attempting to mount a counter ideological response to the assault of neo liberalism on the game

The Business Ethics Twin-Track Steve Giles, 2015-04-08 Institute a proactive reputational management framework that matches individual behaviour to organizational values The Business Ethics Twin Track is a practical guide to reputational risk management A deep exploration of the concept of reputation the ways in which it can suffer and the consequences when it does the book outlines an ethics controls framework that can mitigate risk and improve business performance Readers will learn how to identify and manage weaknesses and how to institute a system of governance that embeds proper ethical conduct into the corporate culture A clear set of controls and procedures provides actionable instruction that can be customised to suit the organisational structure and discussion of historical and international ethics provides the context for implementation Case studies illustrate the real world applications while interviews with executives from a variety of sectors provide important practical insights into some of the key issues discussed

in the book The law regulates behaviour in health and safety and financial crime but otherwise conduct is largely determined by the culture ethics and values of an organisation Effective reputation management is complex and often difficult to achieve as much of the available information on the topic is more theoretical than practical This book bridges the gap by providing the tools that will help managers to Implement a modern ethics control framework encompassing codes officers reporting lines and training Consider the role of the media and social media in reputational damage to individuals and organisations Analyse the key controls in responsibility and governance frameworks from around the world Determine the causes and controls of conduct risk including incompetence negligence and criminality Today s fast paced media environment means corporate reputations can be obliterated in moments and damage limitation is often too little too late Adopting the measures set out in this book will embed ethics into the culture and match people s behaviours to the organisation s values

Advances in Artificial-Business Analytics and Quantum Machine Learning KC Santosh,Sandeep Kumar Sood,Hari Mohan Pandey,Charu Virmani,2024-09-18 This book presents select proceedings of the 3rd International Conference on Artificial Business Analytics Quantum and Machine Learning Trends Perspectives and Prospects Com IT Con 2023 held at the Manav Rachna University in July 2023 It covers topics such as artificial intelligence and business analytics virtual augmented reality quantum information systems cyber security data science and machine learning The book is useful for researchers and professionals interested in the broad field of communication engineering

Sports Capitalism Frank P. Jozsa,2017-11-28 The book focuses on how when where and why the US based professional sports leagues extend their brands and penetrate markets in nations across the globe The book examines the strategies progress and expectations of each league despite the cultural economic and political barriers that exist between and within countries and areas It offers a model of the sports business and where appropriate the emergence evolution and growth of prominent women s sports leagues are documented This book is unique as there are no other academic publications that study and report the global ambitions of this special group of organizations in one volume Readers such as college and university sports history management marketing and international business professors students and researchers can use and apply the book as either a teaching supplement reference and or literature source It will also appeal to targeted groups beyond the academic community with strategic economic incentives to learn about sports capitalism such as sports entrepreneurs and league officials
