ChatGPT, short for Chat Generative Pre-trained Transformer, is an Artificial Intelligence (AI) program developed by OpenAI (American Artificial Intelligence Research Laboratory). It was launched in November 2022 and it has become a hit.

The program is also really successful in offering thoughtful responses regarding legal matters, ethics and people's emotions and feelings safeguarding all of those involved. Its functions seem to grow and grow as the chatbot continues to update. Although the web is in English, ChatGPT understands and answers in several languages.
