The Internet is considered among one of those inventions of modern age which have just revolutionized the world It s most powerful information pertaining to anything and everything that we can think of can be obtained through the Internet In this book You will be introduced with the masterminds who were behind the idea of creating a world at the back of a monitor screen From just an idea they have created technology that has brought about a difference in our lives They who made our life easier by making our day to day work just a few click away They who brought us close to our dear ones They are referred to Kings of Internet They are the ones who took the technology to common hands with the powerful tools they have invented and transformed Internet into huge market place Here we are trying to honor those Kings with few sentences on their early life their struggle the achievement they have made and their future place for us

Trust in a Complex World Charles Heckscher,2015-10-30 Can we rebuild trust in a time of increasing conflict and paralysis Or rather can we build trust for the first time wide and strong enough to bring us together to work on the complex problems of our age Relations of trust have been weakened over the past century by a historic expansion of communication and cross cultural interaction and the advance of complex fluid relationships Now the rapid rise of the internet has accelerated the disruption Many long for the comfort and security of relations in which one knew whom to trust and what to expect yet at the same time they may embrace the dynamism and creativity that comes from mixing of cultures and perspectives This book explores current conflicts and confusions of relations and identities using both general theory and specific cases It argues that we are at a catalyzing moment in a long transition from a community in which the prime rule was tolerance to one with a commitment to understanding from one where it was considered wrong to argue about cultural differences to one where such arguments are essential The development of this rich community is essential as well as difficult Complex societies produce complex challenges from climate change to inequality to the risk laden opportunities of bioengineering that demand collaboration among people with widely varying views Such brewing crises cannot be worked through without far more deliberate discussion and cooperation and higher levels of trust than we have today This book explores many challenges ahead and suggests some practical directions for resolving them

Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people s use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people s agency in health and that young people can benefit from dealing with

health issues with peers The work is based on the digital ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people

Power to the Players Rob Smat,2023-11-21 The sea shanties YOLO s and red bandanas aren t even half of the GameStop story Did you know Robinhood didn t initiate their infamous trading halt Did you know why Redditors refer to 2021 as the sneeze rather than the squeeze Did you know that shares in your brokerage account might be counterfeits If not buckle up Witness firsthand the real and utterly ludicrous hivemind that brought Wall Street to its knees in January 2021 and find out why GameStop was only the beginning of an even more unprecedented retail contagion one which will challenge everything you think you know about our markets all over again If the meme mania of 2021 drew blood from Wall Street what follows is the Shakespearean realization that Reddit s blade was in fact poisoned In a digital world of frequently deleted revised and buried information accurately piecing together events as they occurred is nearly impossible Other authors and journalists have understandably struggled but not author Rob Smat who has been a witness to every part of the GameStop phenomenon having lived it himself Power to the Players is as much an unabridged history of the GameStop sneeze as it is a roadmap of how retail traders regrouped in the months and years that followed when everyone else thought the story had ended in calamity The truest of diamond hands never sold and their power has only grown stronger since Before Redditors were only a nuisance to the status quo Now they
