Taylor Kollman,2025-04-01 In a world that commodifies feminism is adapting romance novels for small and big screen projects and the Romance Writers Association is evolving to a more inclusive representative group it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre It is time to question the cultural capital of traditional archetypes explore the experience of romance readers and question how romance and cultural studies researchers create quantitative qualitative and mixed methods research This work centers around a data set collected with a revised version of Janice Radway s Reading the Romance survey that will be shared with all the authors of this anthology By having access to this pool authors will have the opportunity to explore different elements of reader

experience and cultural norms in romance fiction and potentially reflect on changes since Janice Radway's seminal work *The* norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of *Bridgerton* and romance series like *Ice Planet Barbarians* exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element and to do so creates an exciting opportunity to create a more inclusive study of popular romance. This edited volume offers truly interdisciplinary research on the question of how readers read romance and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.

Historical Romance Fiction Lisa Fletcher, 2016-04-22 The first book-length study of romance novels to focus on issues of sexuality rather than gender, *Historical Romance Fiction* moves the ongoing debate about the value and appeal of heterosexual romance onto new ground, testing the claims of cutting-edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A.S. Byatt. Beginning with her nomination of *I Love You* as the romance novel's defining speech act, Lisa Fletcher engages closely with speech act theory and recent studies of performativity. The range of texts serves to illustrate Fletcher's definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act *I love you* and permits Fletcher to provide a detailed account of the genre's history and development in both its popular and literary manifestations. Written from a feminist and anti-homophobic perspective, Fletcher's subtle arguments about the romantic speech act serve to demonstrate the genre's dependence on repetition. Romance can only quote and the shaky ground on which the romance's heterosexual premise rests. Her exploration of the subgenre of cross-dressing novels is especially revealing in this regard. With its deft mix of theoretical arguments and suggestive close readings, Fletcher's book will appeal to specialists in genre, speech act, and performativity theory, and gender studies.
