Douyin, TikTok and China's Online Screen Industry Chunmeizi Su, 2023-09-22 TikTok has drawn attention from all over the world. Even if you have never used it before, you would still be familiar with its name. Many people have assumed that it is a US-generated platform and normally awed at its real origin: a Chinese-born and operated platform, a sister or parallel platform of Douyin. Because of the short-video platform TikTok and also its dispute with the US government, people have started to pay attention to what is really happening and changing in China. Two questions that hang over everyone's mind seem to be: why China? And why TikTok? This book attempted to answer the question of why short-video platforms such as TikTok, the most popular made-in-China product of all the Chinese digital platforms, became a significant competitor on the global stage. This book explores the reasons behind the rise of short-video platforms in China, with a focus on the sudden and unexpected success of TikTok and its parallel platform Douyin. Beginning with the historical development of China's online screen industry, the book goes on to investigate the ICT industry, its business models, and its impact on the screen industry to unfold the reasons behind the domestic popularity of Douyin. It draws on a spectrum of sources, including policy documents, industry reports, and expert analysis, which is supplemented by interviews with key people in the field. It traces the changing dynamics of the Chinese online screen ecology and shows how a mixture of

technological industrial and cultural factors contributed to the proliferation of short video platforms in China This engaging and topical book will be ideal reading for students and scholars of media and communication studies platform studies and political economy studies Proceedings of the 2nd International Conference on Business and Policy Studies Canh Thien Dang,Javier Cifuentes-Faura,Xiaolong Li,2023-10-07 This proceedings volume contains papers accepted by the 2nd International Conference on Business and Policy Studies CONF BPS 2023 which are carefully selected and reviewed by professional reviewers from corresponding research fields and the editorial team of the conference This volume presents the latest research achievements inspirations and applications in applied economy finance enterprise management public administration and policy studies CONF BPS 2023 was a hybrid conference that includes several workshops offline and online around the world in Cardiff Jan 2023 London Feb 2023 and Sydney Feb 2023 Prof Canh Thien Dang from King s College London Prof Arman Eshraghi from Cardiff Business School and Prof Kristle Romero Cort s from UNSW Business School have chaired those offline workshop **The Retailer as a Brand** Jörn Redler,2025-09-26 This book covers the principles and action areas of store brand management which aims to establish retail locations as strong brands The author explains key concepts outlines central challenges and addresses the specific approaches for both strategic and operational brand management in retail The main focus is on communication at the point of purchase The content is theoretically grounded and includes many structuring aids considering both brick and mortar and online retail Perspectives from both business to customer B2C and business to business B2B trade are integrated The clear presentation of complex relationships with numerous illustrations provides valuable insights for practical work in retail companies and facilitates students access to the subject matter In the second edition the content has been updated to reflect new developments and research findings Current examples have been added Finally a book that conceptually examines the store brand and shows why retail locations should be understood as brands and how they can be built and managed Redler presents the theoretical connections to established brand management concepts but also discusses practical blueprints for the strategic and implementation challenges faced by store managers He considers the connection between brick and mortar and virtual retail and addresses aspects of both B2C and B2B commerce Dr Saskia Diehl Managing Director GMK Brand Consulting Cologne The Author Dr Jörn Redler is a Full Professor of Marketing at Mainz University of Applied Sciences Germany where he teaches branding consumer psychology and communications to undergraduates and postgraduates His research focuses on retail communication and paradigms in brand management Proceedings of the Fifth Annual International Conference on Business and Public Administration (AICoBPA 2022) Andy Fefta Wijaya,Fadillah Amin,Mohammad Iqbal,2023-07-31 This is an open access book This year of 2022 in a concordance with the 62th Anniversary of Faculty of Administrative Science Universitas Brawijaya Indonesia we proudly present the 5th Annual International Conference on Business and Public Administration AICoBPA 2022 AICoBPA 2022 invites scientists and professionals from various fields related to Business and
