It is a practical reference for both undergraduate and graduate students preparing to enter the field of long term care administration and leadership, as well as for professionals transitioning to another line of postacute service. The textbook begins with a thorough history of the field, including the development of senior services in the United States. Section I then describes the components of customer care, supports, and services before transitioning into Section II, which addresses operations, including the core practice domains of effectively managing human resources, finances, and the environment. Section III offers a framework for leadership, covering strategic thinking and innovation, marketing, and public relations, critical thinking, and operation practice, customer service, and personal development. Case problems, discussion questions, leadership roles, high impact practices, key points, and National Association of Long Term Care Administrator Boards (NAB) domain competencies conclude each chapter. Written by two highly experienced long term care administrators, this textbook is intended for those preparing for the examinations administered by the NAB for the HSETM qualification or licensure for individual lines of service, such as for Nursing Home Administration (NHA), Residential Care and Assisted Living (RCAL), and Home and Community Based Services (HCBS). Key Features: Provides best practices for leadership and management across the continuum of long term care and senior living services.
