Eine globale Geschichte von Kriegsführung und Technologie Kaushik Roy, 2024-10-26 Dieses Buch behandelt die globale Geschichte von Technologie, Kriegsführung und Staatenbildung vom Steinzeitalter bis zum Informationszeitalter. Unter Verwendung einer Kombination von Top Down und Bottom Up Methoden untersucht es sowohl zwischenstaatliche als auch innerstaatliche Konflikte mit einem Schwerpunkt auf eurasischer Technologie und Kriegsführung. Es zeigt, wie menschliches Handeln und strukturelle Faktoren miteinander verflochten sind und ein komplexes Geflecht von Technologie und Kriegsführung schaffen. Es erforscht auch das Zusammenspiel zwischen technologischen und nicht technologischen Faktoren um die Entwicklung der Kriegsführung von ihren Anfängen bis heute zu veranschaulichen und argumentiert, dass die Interaktionen zwischen zivilen und militärischen Sektoren den Einsatz von Technologie in der Kriegsführung geprägt haben. Aufgrund ihres Umfangs und ihrer Tiefe ist es eine wertvolle Ressource für Forscher in Bereichen wie Weltgeschichte, Geschichte von Wissenschaft und Technologie, Geschichte von Kriegsführung und Imperialismus sowie Internationale Beziehungen. **A Global History of Warfare and Technology** Kaushik Roy, 2022-08-05 This book addresses the global history of technology, warfare, and state formation from the Stone Age to the Information Age. Using a combination of top down and bottom up methodologies, it examines both interstate and intrastate conflicts with a focus on Eurasian technology and warfare. It shows how human agency and structural factors have intertwined, creating a complex web of technology and warfare. It also explores the interplay between technological and non technological factors to chart the evolution of warfare from its origins to the present day, arguing that the interactions between civilian and military sectors have shaped the use of technology in warfare. Given its scope and depth, it is a valuable resource for researchers in fields such as world history, history of science, and technology, history of warfare, and imperialism and international relations. **The Eurasian Way of War** David A.

Graff,2016-03-10 This book is a comparative study of military practice in Sui Tang China and the Byzantine Empire between approximately 600 and 700 CE It covers all aspects of the military art from weapons and battlefield tactics to logistics campaign organization military institutions and the grand strategy of empire Whilst not neglecting the many differences between the Chinese and Byzantines this book highlights the striking similarities in their organizational structures tactical deployments and above all their extremely cautious approach to warfare It shows that contrary to the conventional wisdom positing a straightforward Western way of war and an Oriental approach characterized by evasion and trickery the specifics of Byzantine military practice in the seventh century differed very little from what was known in Tang China It argues that these similarities cannot be explained by diffusion or shared cultural influences which were limited but instead by the need to deal with common problems and confront common enemies in particular the nomadic peoples of the Eurasian steppes Overall this book provides compelling evidence that pragmatic needs may have more influence than deep cultural imperatives in determining a society's way of war

Chinese Esoteric Buddhism Geoffrey C. Goble, 2019-10-08

Chinese Esoteric Buddhism is generally held to have been established as a distinct and institutionalized Buddhist school in eighth century China by the Three Great Masters of Kaiyuan ubh karasi ha Vajrabodhi and Amoghavajra Geoffrey C Goble provides an innovative account of the tradition s emergence that sheds new light on the structures and traditions that shaped its institutionalization Goble focuses on Amoghavajra 704 774 contending that he was the central figure in Esoteric Buddhism s rapid rise in Tang dynasty China and the other two patriarchs are known primarily through Amoghavajra s teachings and writings He presents the scriptural mythological and practical aspects of Chinese Esoteric Buddhism in the eighth century and places them in the historical contexts within which Amoghavajra operated By telling the story of Amoghavajra s rise to prominence and of Esoteric Buddhism s corresponding institutionalization in China Goble makes the case that the evolution of this tradition was predicated on Indic scriptures and practical norms rather than being the product of conscious adaptation to a Chinese cultural environment He demonstrates that Esoteric Buddhism was employed by Chinese rulers to defeat military and political rivals Based on close readings of a broad range of textual sources previously untapped by English language scholarship this book overturns many assumptions about the origins of Chinese Esoteric Buddhism

conflict rather than traditional campaign narratives this volume reaches farther back into China's military history than similar studies.
