Essays on Medieval German and Other Poetry A. T. Hatto, 1980-04-10 The essays in this 1980 volume deal largely with medieval German heroic and epic poetry

Count and Bishop in Medieval Germany Benjamin Arnold, 2016-11-11 In this examination of the functions of lordship in a medieval society Benjamin Arnold seeks answers to some of the most fundamental questions for the period of political and institutional history How did the lords maintain control over the people land and resources How was their rule sustained and justified Arnold chooses to analyze the Eichstätt region an area on the borders of three major German provinces Bavaria Franconia and Swabia The region was the geographical and political dimension within which succeeding bishops with great tenacity and inventiveness survived the threat of dominion by their secular neighbors the counts The bishops of Eichstätt were able to emerge with a durable territorial structure of their own which they succeeded in recasting between 1280 and 1320 into a credible and long lasting principality Modern ideas of political progress Arnold contends tend to be unfair to medieval institutions that have not left easily recognizable descendants He argues that it would be more prudent to observe in the territorial fragmentation of Germany not the triumph of chaos but the outcome of a reasonably orderly social and legal process that provided alternative institutions to those of a centralized or national monarchy

World of Baby Names Teresa Norman, 2003-07-01 One of the most comprehensive baby name reference guides available featuring more than 30 000 baby names has been revised and expanded Each chapter focuses on names from specific countries regions and ethnicities including details about traditional naming customs Each entry contains various spellings and pronunciations as well as the name's meaning history etymology and derivations

Hough,2016-04-28 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of

name origins is more recent as is the study of names in literature. Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades. The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order. The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar, meaning and discourse. Parts II and III deal with the study of place names and personal names respectively, while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods. Part V explores the field of socio-onomastics with chapters relating to the names of people, places and commercial products. Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them.

Origins of Yiddish Dialects Alexander Beider, 2015-10-30. This book traces the origins of modern varieties of Yiddish and presents evidence for the claim that contrary to most accounts, Yiddish only developed into a separate language in the 15th century. Through a careful analysis of Yiddish phonology, morphology, orthography and the Yiddish lexicon in all its varieties, Alexander Beider shows how what are commonly referred to as Eastern Yiddish and Western Yiddish have different ancestors. Specifically, he argues that the western branch is based on German dialects spoken in western Germany with some Old French influence, while the eastern branch has its origins in German dialects spoken in the modern-day Czech Republic with some Old Czech influence. The similarities between the two branches today are mainly a result of the close links between the underlying German dialects and of the close contact between speakers. Following an introduction to the definition and classification of Yiddish and its dialects, chapters in the book investigate the German, Hebrew, Romance and Slavic components of Yiddish as well as the sound changes that have occurred in the various dialects. The book will be of interest to all those working in the areas of Yiddish and Jewish Studies in particular and historical linguistics and history more generally.

The Romance of Names Ernest Weekley, 2022-09-16. In *The Romance of Names*, linguist Ernest Weekley delves into the fascinating tapestry of nomenclature, offering readers insight into the historical, etymological and social significance of names. Beyond its scholarly exploration of the origins and evolution of names, the book stands as a testament to literary craftsmanship, woven with an engaging prose style that both informs and delights. Weekley promotes an understanding of how names are not merely identifiers but carry with them the vestiges of culture and history amidst changing linguistic landscapes. The book, reproduced with scrupulous care by DigiCat Publishing, persists as a crucial component of the lexicon of literary works dedicated to etymology and onomastics within the broader humanistic discourse.

Ernest Weekley's own scholarly background and linguistic prowess informed the nuanced content of this beloved classic. An expert in philology, Weekley's academic interests and pedagogical contributions were instrumental in demystifying the intricate connections between language, identity and history for the lay reader. His meticulous research and captivating pedagogical approach

evidently guided the creation of this work which serves both as an entrancing guide for language enthusiasts and as a foundational text for those with scholarly inclinations in the study of names Weekley's authoritative voice in the field resonates throughout the pages of *The Romance of Names* This definitive edition by DigiCat Publishing beckons the reader be they a student of linguistics a history aficionado or simply one intrigued by the idiosyncrasies of personal appellations to engage with Weekley's scholarly yet accessible study A seminal work it is indispensable for those desirous of plumbing the depths of onomastic significance and appreciating the rich tapestry of human cultural heritage *The Romance of Names* is a captivating read that promises to enrich one's understanding of the profound and oft overlooked influence that names hold over our personal and collective identities
