What Mennonites Are Thinking 1999 Merle Good,Phyllis Pellman Good,2013-05 In a remote canyon in northern New Mexico the early morning stillness is broken by voices chanting praises to the Lord And thus begins

the daily cycle in the Godcentered life and search of the Benedictine monks at the Monastery of Christ in the Desert Seeking God is a monastic tapestry The daily life of the monks is interwoven with the seasonal changes and celebrations and the candid words of the monks as they speak of their life their hopes and doubts their hardships fears and joys their prayer Weaving this tapestry together are the hauntingly beautiful chants songs of praise and reverence that echo through the darkness before dawn throughout the day through the solemnity of Vespers in the evening and Compline at night The majestic beauty of the environment captured in every season reflects a peace and tranquility that becomes an integral part of this monastic tapestry The high red rock walls of the canyon where eagles fly cradle the valley whose stillness is broken only by the flowing waters of the Chama River and the winds that occasionally funnel through Seeking God presents the ongoing process of the monastic way through the words and activities of these Benedictine monks as they move through the day and through the seasons in their search for God through prayer work study and song

Edgewalkers Judi Neal, 2006-10-30 In ancient cultures each village had a shaman or medicine man who would visit the invisible world to obtain vital information guidance and healing for members of the tribe These edgewalkers have contemporary counterparts in today's organizations those individuals who don't fit squarely into any one box in their metaphorical travels they interpret trends from the marketplace translate messages across departments and envision the future impact of today's decisions and actions Edgewalking doesn't come without its own risks and challenges these unconventional people often clash with more traditional rule bound colleagues and they are often frustrated by organizational systems that emphasize quantitative results over creative impulses And yet in today's fast changing diverse and globalized business environment organizations must recruit and support these people in order to stay competitive Featuring colorful interviews and practical tools to gauge and manage your own edgewalking skills Edgewalkers explores the opportunities that are created by defying formal boundaries and fostering creativity at every level of the organization They're the first people to volunteer to head up a new business unit lead a cross company initiative or take on an overseas assignment They're the glass half full folks who are constantly thinking out of the box forging alliances with colleagues in other departments seeking out new solutions to old problems and anticipating challenges on the horizon And in today's increasingly diverse workplaces they are often people who have pursued unusual educational and career paths traveled widely and speak more than one language Judi Neal has a term for these people Edgewalkers Literally an edgewalker is someone who walks between two worlds In ancient cultures each village had a shaman or medicine man who would visit the invisible world to obtain vital information guidance and healing for members of the tribe Today's corporate edgewalkers serve a similar function interpreting trends from the marketplace translating messages across departments and envisioning the future impact of today's decisions and actions Edgewalking doesn't come without its own risks and challenges these unconventional people often clash with more traditional rule bound colleagues and they are often frustrated by organizational systems that emphasize quantitative results over creative impulses

And yet in today's fast changing globalized business environment organizations must recruit and support these people in order to stay competitive. Featuring colorful interviews with edgewalkers from a variety of fields and practical tools to gauge and manage your own edgewalking skills, *Edgewalkers* explores the opportunities that are created by defying formal boundaries and fostering creativity at every level of the organization.
