Melancholy Dialectics Max Pensky, 1993 In recent years the German Jewish critic and philosopher Walter Benjamin has come to be regarded as one of the leading intellectual figures of the 20th century Yet much of his work particularly his theoretical writing remains elusive *The Cambridge Companion to Walter Benjamin* David S. Ferris, 2004-03-25 This Companion offers a comprehensive introduction to the thought of the highly influential twentieth century critic and theorist Walter Benjamin The volume provides examinations of the different aspects of Benjamin's work that have had a significant effect on contemporary critical and historical thought Topics discussed by experts in the field include Benjamin's relation to the avant garde movements of his time his theories on language and mimesis modernity his significance and relevance to modern cultural studies and his autobiographical writings Additional material includes a guide to further reading and a chronology Walter Benjamin: Modernity Peter Osborne, 2005 No other single author has so commanding a critical presence across so many disciplines within the arts and humanities in so many national contexts as Walter Benjamin 1892-1940 The belated reception of his work as a literary critic dating from the late 1950s has been followed by a rapid series of critical receptions in different contexts Frankfurt Critical Theory and Marxism Judaism Film Theory Post structuralism Philosophical Romanticism and Cultural Studies This collection brings together a selection of the most critically important items in the literature across the full range of Benjamin's cultural theoretical interests from all periods of the reception of his writings but focusing upon the most recent to produce a comprehensive overview of the best critical literature **The Aesthetics of Disengagement** Christine Ross, 2006 Reveals the artistic subjectivity of the scientific notion of depression

Women and Domestic Space in Contemporary Gothic Narratives A. Soon, 2016-04-29 Moving away from traditional studies of Gothic domesticity based on symbolism Soon instead focuses on domestic space s material presence and the traces it leaves on the human subjects inhabiting it Approaching novels and films such as *Beloved* and *The Exorcist* this study intersects psychoanalysis phenomenology and various spatial theories

Dialectical Freedom as Found in Soren Kierkegaard's Religious Works Frank Granzeier, 2018-11-16 Freedom is a major theme for the intellectuals of this postmodern age No doubt the main cause of this springs from contemporary attacks against freedom The chains and fetters of communism threaten to bind man s external freedom What is worse the invisible hand of materialism threatens to squeeze the very life from man s internal freedom

New Literary and Linguistic Perspectives on the German Language, National Socialism, and the Shoah Peter Davies, Peter J. Davies, Andrea Hammel, 2014 New perspectives on the relationship or the perceived relationship between the German language and the causes nature and legacy of National Socialism and the Shoah

Political Theology of Kierkegaard Das Saitya Brata Das, 2020-02-14 Saitya Brata Das argues that in Kierkegaard s work we find a radical eschatological critique not only of the liberal humanist pathos of modernity but also the political theology of Carl Schmitt that seeks to legitimise the sovereign power of the state by an appeal to a divine or theological foundation Relating Kierkegaard s notion of Christianity without Christendom to the Schellingian eschatological critique of sovereignty he shows how Schelling s insistence on the eschatological difference between religion and politics is transformed and further intensified in Kierkegaard s critique of historical reason Such an exception without sovereignty Das argues is the very task of our contemporary time

Critical theory and feeling Simon Mussell, 2017-11-02 This book offers a unique and timely reading of the early Frankfurt School in response to the recent affective turn within the arts and humanities Resisting the overly rationalist tendencies of political philosophy it argues that critical theory actively cultivates a powerful connection between thinking and feeling and rediscovers a range of often neglected concepts that were of vital importance to the first generation of critical theorists including melancholia hope un happiness objects and mimesis In doing so it brings the dynamic work of Walter Benjamin Theodor Adorno Ernst Bloch and Siegfried Kracauer into conversation with more recent debates around politics and affect An important intervention in the fields of affect studies and social and political thought Critical theory and feeling shows that sensuous experience is at the heart of the Frankfurt School s affective politics

Elliot R. Wolfson: Poetic Thinking Hava Tirosh-Samuelson, Aaron W. Hughes, 2015-03-20 Elliot R Wolfson is Professor of Religious Studies and the Marsha and Jay Glazer Chair of Jewish Studies at the University of California Santa Barbara A scholar of Jewish mysticism and philosophy he uses the textual sources of Judaism to examine universal philosophical topics such as the function and processes of the imagination the paradoxes of temporality and the mystery of poetic language Working at the intersection of disciplines and refusing to reduce texts to their simple historical contexts Wolfson puts texts

spanning diverse temporal cultural and religious periods in creative counterpoint His sensitivity to language reveals its fragility as it simultaneously points to the uncertainty of meaning The result is a creative reading of both Judaism and philosophy that informs and is informed by poetic sensibility and philosophical hermeneutics

Postmodernism and China Xudong Zhang, Arif Dirlik, 2000-10-27 This work maps the terrain of the postmodern in China

Poets on the Edge Jesús Sepúlveda, 2016-01-22 Poets on the Edge critically explores the relationship between poetry and its context through the work of four Latin American poets Chilean Vicente Huidobro 1898 1948 Peruvian César Vallejo 1893 1938 Chilean Juan Luis Martínez 1943 1993 and Argentine Nstor Perlongher 1949 1992 While Huidobro and Vallejo establish their poetics on the edge in the context of worldwide conflagrations and the emergence of the historical avant garde during the first half of the twentieth century Martínez and Perlongher produce their work in the context of the Chilean and Argentine dictatorships respectively developing different strategies to overcome the panoptic societies of control installed throughout the 1970s and 1980s Martínez recreates the avant garde tradition in a playful manner to avoid censorship and also proposes a philosophical poetics to stage a utopian project oriented toward redesigning the house of civilization that has fallen apart Perlongher unfolds his peculiar Neobaroque sensitivity in order to reshape the complex Latin American identities culminating his poetic project with two collections written under the influence of ayahuasca based ceremonies Poets on the Edge offers the reader a new understanding of the hybrid and edgy nature of Latin American poetics and subjectivity as well as of the evolution of poetry written in Spanish during the twentieth century

Differential Aesthetics Penny Florence, Nicola Foster, 2017-11-30 This title was first published in 2000 This is an interdisciplinary and international

collection on aesthetics with contributions from artists and philosophers and the range of thinkers about art in between It aims to provide a forum for the kinds of question that used to be addressed within traditional aesthetics but which have until recently been sidelined in critical writing about art and indeed in many of the most important art practices The collection as a whole is situated in relation to feminists approaches but the editors hope that it will not be read as limited to them

Travel and Ethics Corinne Fowler, Charles Forsdick, Ludmilla Kostova, 2013-12-13 Despite the recent increase in scholarly activity regarding travel writing and the accompanying proliferation of publications relating to the form its ethical dimensions have yet to be theorized with sufficient rigour Drawing from the disciplines of anthropology linguistics literary studies and modern languages the contributors in this volume apply themselves to a number of key theoretical questions pertaining to travel writing and ethics ranging from travel as commoditization to encounters with minority languages under threat Taken collectively the essays assess key critical legacies from parallel disciplines to the debate so far such as anthropological theory and postcolonial criticism Also considered and of equal significance are the ethical implications of the form s parallel genres of writing such as ethnography and journalism As some of the contributors argue innovations in these genres have important implications for the act of theorizing travel writing itself and the mode and spirit in which it continues to be conducted In the light of such innovations how might ethical theory maintain its critical edge The Spell of Capital Johan F. Hartle, Samir Gandesha, 2017-03-08 The Timeliness of Western Marxism reconstructs the tradition impact and contemporary relevance of two key concepts of critical cultural analysis It thus emphasizes the continuity of a specific tradition of Western Marxism in which the concepts of reification and spectacle were originally coined the Luk cs Debord axis The contemporary relevance of these two thinkers is at once highly dubious and more than obvious in analytical or descriptive terms the concepts of reification and spectacle are often invoked more often than not without any direct reference to their original theoretical context The Luk cs Debord axis represents a whole tradition of Marxist cultural critique In light of the analyses of this book the theoretical insights and conceptual contributions of Luk cs and Debord are not only inseparable from the key ambitions of so called Western Marxism but even define its very core The aim of this book is to provide a fundamental understanding of the history of Western Marxism to revisit discussions of the importance of its methodology for a materialist phenomenology of contemporary society
