Maritime Economics 3e Martin Stopford,2008-12-19 Combining a sophisticated historical and theoretical analysis of the shipping industry with a practical explanation of all aspects of the shipping industry this third edition is essential reading for students and professionals with an interest in this area Thinking through China Jerusha McCormack,John G. Blair,2015-08-01 In this innovative book Jerusha McCormack and John G Blair introduce China on its own terms By explaining ten key concepts that frame the way most Chinese people think about the world they compare these terms which don t translate readily into English with the ways most of us as Westerners think The book then poses four questions that Westerners routinely ask about China But rather than answer with Western assumptions the authors respond using these ten Chinese key words Not surprisingly the answers differ in startling ways from standard Western responses This intensive bridging work allows those without deep knowledge of China to understand the very different perspectives to be gained by looking at the world through Chinese eyes As each of the ten words maps out new territory the premises of a very dissimilar but equally coherent world view gradually emerge Creating a cultural cartography through both text and image the authors provide readers with a vivid sense of what is uniquely Chinese about China **EXPLORING CHÁN** Chuan Zhi,2025-03-01 Exploring Ch n A Journey into the Heart of Chinese Buddhism Chuan Zhi s Exploring Ch n is a profound and comprehensive guide to the history philosophy and practice of Chinese Ch n Buddhism Blending rigorous scholarship with philosophical
