Organizational Influence Processes Robert W. Allen,Lyman W. Porter,H.L. Angle,2016-09-16 With more than two thirds fresh material this new updated edition of *Organizational Influence Processes* provides an overview of the most important scholarly work on topics related to the exercise of influence by individuals and groups within organizations In selecting articles for inclusion the editors were guided by the conviction that the most useful and interesting way to view organizational influence is to take a directional approach that is to consider the process from the perspective of downward lateral and upward influence They have organized the readings around this framework preceded by an introductory group of articles dealing more generally with the nature of influence processes and power The book includes both classic readings and the latest cutting edge research from some of the most respected experts writing in the field It will be equally useful for any upper level undergraduate or graduate course concerned with organizational behavior group behavior leadership or power and politics

Organizational Behavior 4 John B. Miner,2007-03-05 This unique work bridges the gap between theory and practice in organizational behavior It provides a practical guide to real life applications of the 35 most significant theories in the field The author describes each theory then analyzes its usefulness and importance to the successful practice of management His analysis covers key managerial topics such as goal setting training and development assessment job enrichment influence processes decision making group processes organizational development organizational structuring and effective organizational operation

Organizational Psychology Steve M. Jex,2002-11-08 A comprehensive treatment of the science and practice of organizational psychology Following a scientist practitioner model *Organizational Psychology* explores the practical implications of the current research in the field expertly integrating multicultural and international issues Beginning with a foundation of research methodology author Steve Jex examines the behavior of individuals in organizational settings Drawing on his experiences as a consultant and educator he uses actual cases to illustrate workplace issues offering balanced coverage of such key topics as occupational stress motivation and corporate culture Also presented is unique information on research methods and the use of statistics in understanding organizations With an emphasis on applying theory and research in practice Jex explores the mechanisms that organizations use to influence employees behavior addressing the major motivation theories in organizational psychology Readers will discover how psychological models can be used to improve employee morale productivity and quality of service The focus then shifts from the individual to the group level an important distinction given the increased reliance on teams in many organizations Jex identifies the factors that have the greatest impact on group effectiveness and examines the dynamics underlying intergroup behavior Finally he moves to

the organization macro level revealing a variety of ways in which organizations engage in planned change with the assistance of behavioral science knowledge *High Performance Through Business Process Management* Mathias

Kirchmer,2017-03-09 This management book presents value driven business process management as a successful discipline to turn strategy into people and technology based execution quickly and at minimal risk It shows how to achieve high performance successfully in a digital business environment Static business models do not keep pace with the dynamic changes in our digital world Organizations need a management approach that fits this environment and capitalizes on its opportunities while minimizing the related risks They need to execute their business strategy fast and reliably In effect they have to know how and when to modify or enhance their business processes which processes are the best candidates for intervention and how to move rapidly from strategy to execution This means organizations need to establish business process management as a real management discipline The importance of process innovation digital technology and people aspects process governance internationalization emerging processes and the unique situation in mid market organizations are some of the key topics discussed in this book It ends with a comprehensive case study and a discussion about what process engineers can learn from jazz musicians **The Business of Influence** Philip Sheldrake,2011-05-04 Media has most

definitely evolved as have the ways in which we contemplate design communicate and execute strategy And rather than technological evolution we re plainly in the midst of a technological revolution We have no choice then but to reframe marketing and PR in the context of 21st Century technology 21st Century media and disintermediation and 21st Century articulation of and appreciation for business strategy Today every organization is in the influence business We influence customers to buy from us employees to work for us and the media to write about us Gone are the days when you could be your own island Now to be successful you need to live within the influence ecosystem and that requires a change of mindset Fortunately Philip Sheldrake will show you how David Meerman Scott bestselling author of *The New Rules of Marketing PR* and the new hit *Real Time Marketing PR* **Research Handbook on Organizational Resilience** Edward H.

Powley,Brianna Barker Caza,Arran Caza,2020-08-28 This Research Handbook identifies how resilience has evolved as a critical theoretical concept in the organizational sciences International resilience scholars conceptualize and explore the various ways resilience can be embedded in theory and practice offering new and updated perspectives on the importance of resilience in multiple contexts **Business Process Management** Andreas Gadatsch,2023-05-27 This textbook bridges the

gap between business management and organisational methods and their digital implementation because process management increasingly means designing operational tasks In addition to methodological basics the work offers many practical examples and exercises Prof Gadatsch s book is now considered the current classic THE authoritative standard work on IT supported design of business processes The tenth edition has been revised and adapted to the requirements of the digital transformation Process management has evolved greatly due to the trend of digitalisation and as a result of the

pandemic Another related trend is the increased use of Data Science methods for process management which has been consequently named Process Science at scientific conferences Recent research results published under the heading of Explorative Process Management are also of particular importance They show that the first main phase of process management was rather focused on optimising existing processes and business models New practical examples were included at various points in the book for example the migration strategies for the ERP system SAP S 4 HANA which is the basis for many industrial and service processes The chapter on modelling processes was updated and newer methods such as Business Model Canvas were included

Case Studies in Ethics and HIV Research Sana Loue, Earl C. Pike, 2007-10-05 This book represents the compilation of efforts by researchers across the country each of whom is dedicated not only to the prevention and elimination of HIV infection but also to the conduct of research according to the highest ethical principles The authors of the case studies have graciously agreed to share their experiences in conducting research which raised questions for them and will motivate us to further inquiry and examination The views that are presented in this text are diverse and readers may or may not agree with the analyses of the editor authors or the authors of the case studies We do not aim for agreement among readers but rather the studied analysis of the ethical issues raised in the conduct of HIV research We clearly emphasize the protection of the individuals participating in such research as well as their communities and view research not as an enterprise undertaken by researchers but rather as a negotiated exchange between researchers participants and communities that also involves interplay with funding sources ancillary partners and governments
