**Organizing Matters** Guy Mundlak, 2020-05-29 Organizing Matters demonstrates the interplay between two distinct logics of labour's collective action on the one hand workers coming together usually at their place of work entrusting the union to represent their interests and on the other hand social bargaining in which the trade union constructs labour's interests from the top down The book investigates the tensions and potential complementarities between the two logics through the combination of a strong theoretical framework and an extensive qualitative case study of trade union organizing and recruitment in four countries Austria Germany Israel and the Netherlands These countries still utilize social wide bargaining but find it necessary to draw and develop strategies transposed from Anglo American countries in response to continuously declining membership      **Occupation: Organizer** Clément Petitjean, 2023-04-18 A trenchant history of community organizing and a must read for the next generation of organizers seeking to learn from the successes failures and

contradictions of the past The community organizing tradition is long overdue for reexamination In Occupation Organizer scholar and activist Clement Petitjean traces that history from its roots in the Progressive movement to its expansion and diverging paths during the social movements of the 1960s and 70s when Saul Alinsky became the most popular professional radical in the US while groups like Student Nonviolent Coordinating Committee Students for a Democratic Society and the Black Panthers recast organizers as horizontal antihierarchical spadeworkers those who do the work as part of the community rather than standing apart from it But in the years since the professionalization of organizing work has only increased despite the critiques Only by grappling with its limitations and pitfalls Petitjean insists can we learn to build durable effective organizations for change *American Students Organize* Eugene G. **By** Barbara Czarniawska, Pasquale Gagliardi, 2003-06-30 This book is a collection of texts that explore the analogy between organizing and narrating between action and text The raw material of everyday organizational life consists of disconnected fragments physical and verbal actions that do not make sense when reported with simple chronology Narrating is organizing this raw and fragmented material with the help of such devices as plot and characters Simultaneously organizing makes narration possible because it orders people things and events in time and place The collection written by organization researchers from many different countries explores this analogy in both directions reporting studies that show how narratives are made in situ and applying narrative analysis structuralist and poststructuralist to stories already in existence Barbara Czarniawska is Skandia Professor of Management Studies at GRI School of Economics and Commercial Law Göteborg University Sweden Pasquale Gagliardi is Professor of Sociology of Organization at the Catholic University of Milan and Managing Director of ISTUD Istituto Studi Direzionali Milan Stresa Italy *Community Organization and Social Administration* Simon Slavin, Terry Mizrahi, PhD, John D Morrison, 2013-11-12 Community Organization and Social Administration presents a unique constellation of perspectives from scholars researchers and practitioners grounded in macro theories practice and education Drawing upon the knowledge and experiences of social workers and other community based professionals this book provides a rich cross section of models and strategies for those engaged in social change in the community agency and school or university The chapters include data based practice principles and guidelines for action This book is a must for those who are teaching and practicing in community service community change and planning settings Others who would benefit from the book include administrators of social service and community agencies classroom teachers field instructors and students in organizing planning policy and administration policy analysts program developers and grant officers and leaders and organizers of social change organizations networks and coalitions Community Organization and Social Administration incorporates papers presented at the Symposia on Community Organization and Social Administration held at the Annual Program Meeting of the Council on Social Work Education The papers are edited by members of the Association on Community Organizing and Social Administration ACOSA *Organizing Immigrants* Ruth Milkman, 2018-09-05 Recruiting the growing numbers of immigrants into union ranks is imperative for the besieged U S labor movement Nowhere is this task more pressing than in California where immigrants make up a quarter of the population and hold many of the manual jobs that were once key strongholds of organized labor The first book to offer in depth coverage of this timely topic Organizing Immigrants analyzes the recent history of and prospects for union organizing among foreign born workers in the nation s most populous state Are foreign born workers more or less receptive to unionization than their native born counterparts Are undocumented immigrants as likely as legal residents and naturalized citizens to join unions How much does the political cultural and ethnic background of immigrants matter What are the social political and economic conditions that facilitate immigrant unionization Drawing on newly collected evidence the contributors to this volume explore

these and other questions analyzing immigrant employment and unionization trends in California and examining recent strikes and organizing efforts involving foreign born workers The case studies include both successful and unsuccessful campaigns innovative and traditional strategies and a variety of industrial and service sector settings

**Vulnerability and the Legal Organization of Work** Martha Albertson Fineman, Jonathan W. Fineman, 2017-07-06 This book uses the concepts of vulnerability and resilience to analyze the situation of individuals and institutions in the context of the employment relationship It is based on the premise that both employer and employee are vulnerable to various social economic and political forces although differently so It demonstrates how in responding to those complementary institutional relationships of employer and employee the state unequally and inequitably favors employers over employees Several chapters included in this collection also consider how the state shapes creates and maintains through law the social identities of employer and employee and how that legal regime operates as the allocation of power and privilege This unique and fundamental role of the state in defining the employment relationship profoundly affects the respective abilities and degree of resiliency of actual employers and employees Other chapters explore how attention to the respective vulnerability and resilience of those who do and those who direct work in assessing the employment relationship can raise fundamental questions of social justice and suggest new avenues for critical engagement with labor and employment law Collectively these pieces articulate a framework for imagining what would constitute an appropriately Responsive State in the employment context and how those interested in social justice might begin to use the concepts of vulnerability and resilience in their arguments

**Organizing for Independence** Hans Jonas Gunzelmann, 2025-10-01 Independence protests are on the rise across Europe as Spain the UK and other states have faced severe secessionist challenges The largest wave of these protests swept Catalonia and reached its peak in 2017 when the push for a binding referendum led to an unprecedented secessionist crisis Organizing for Independence explores the question of how the referendum crisis as a threat and opportunity transformed secessionist protest and its organizational basis Combining protest event data qualitative interviews and network analyses Hans Jonas Gunzelmann shows how organizational change took place inside outside and between formal organizations and was driven by activists symbolic constructions of transformative events The book goes beyond simplistic accounts of secessionist protest by providing a dynamic perspective on strategic interactions between protesters and their opponents and allies These insights are particularly timely as independence movements all over the world look with great interest at what happened in Catalonia

*Managed Dissent* Timothy Zick, 2023-05-11 The mass street demonstrations that followed the 2020 police murder of George Floyd were perhaps the largest in American history These events confirmed that even in a digital era people rely

on public dissent to communicate grievances change public discourse and stand in collective solidarity with others However the demonstrations also showed that the laws surrounding public protest make public contention more dangerous more costly and less effective Police fired tear gas into peaceful crowds used physical force against compliant demonstrators imposed broad curfews limited the places where protesters could assemble and abused unlawful assembly and other public disorder laws These and other pathologies epitomize a system in which public protest is tightly constrained in the name of public order Managed Dissent argues that in order to preserve the venerable tradition of public protest in the US we must reform several aspects of the law of public protest
