Megalithomania Artists Antiquarians And Archaeologists At The Old Stone Monuments:

Megalithomania John Michell,1982 *The Stone Circles of Britain, Ireland, and Brittany* Aubrey Burl,2000-01-01 The spectacular stone circles of western Europe some nearly 6000 years old have intrigued viewers through the ages This beautiful book about these megalithic rings explores their ancestry methods of construction and eventual desertion A substantially revised version of Aubrey Burl s highly praised work *The Stone Circles of the British Isles* it offers new insights into the purpose of stone circles It also provides a new interpretation of Stonehenge and of Callanish in Scotland the first overview of the cromlechs in Brittany a discussion of the problems of archaeoastronomy as related to stone circles a greatly expanded Gazetteer and an up to date list of radiocarbon dates and recent excavations **Histories of Archaeology** Tim Murray,Christopher Evans,2008-09-04 In recent years there has been an upsurge of interest in the history of the discipline of archaeology Local national and international histories of archaeology that deal with institutions concepts categories and the social and political contexts of archaeological practice have begun to influence the development of archaeological theory This volume contributes to these developments by reprinting 19 significant papers Spanning much of the last 200 years and global in coverage and outlook the papers provide a thorough grounding in the historiography of archaeology and will enhance understanding of the origins and growth of its theory and practice A general introduction which is itself a contribution to historiography orients readers by outlining core themes and issues in the field *Art and Architecture of the World's Religions* Leslie D. Ross,2009-06-04 Two abundantly illustrated volumes offer a vibrant discussion of how the divine is and has been represented in art and architecture the world over Beginning with the ancient worlds of Mesopotamia Egypt Greece and Rome and moving forward through time *Art and Architecture of the World s Religions* explores the major faiths from countries and continents around the globe helping readers better understand the creations their beliefs have inspired After tracing the history and development of a religion the book provides a general overview of its principal beliefs and key practices It then offers specific examples of how works of art architecture reflect that religion s values The focus of each chapter is on the temples churches and religious buildings statues paintings and other works of art and architecture created by believers Each representative work of art or architecture is examined in terms of its history materials symbols colors and patterns as its significance is explained to the reader With extensive illustrations these volumes are the definitive reference work on art and architecture of the world s religions *Haunted Spaces, Sacred Places* Brian Haughton,2008-06-17 The author of *Hidden History* explores the archaeology legends and strange sightings at 32 ancient sites around the world from Stonehenge to Angkor Wat In *Haunted Spaces Sacred Places* historian Brian Haughton takes readers on a revealing tour of ancient landmarks that are rich in mystery and unexplained phenomena Organized by region this book takes readers from the mysterious megaliths of Britain and Ireland to the haunted tombs of the Etruscans the Pagan origins of Germany s Aachen Cathedral the ancient Native American city of Cahokia the enigmatic Cambodian Temple of Angkor Wat and the

sacred Aboriginal rock formation of Uluru In Haunted Spaces Sacred Places you will discover The history of ancient sites such as Stonehenge Chartres Cathedral Delphi Cuzco and the Ohio Serpent Mound The relationship between ancient Native American sites and unexpected phenomena in Colorado s San Luis Valley The truth behind the legends of the mausoleum of the First Qin Emperor in China home of the Terracotta Warriors The prevalence of modern encounters with ghosts UFOs spook lights Bigfoot and phantom dogs at ancient sacred places With more than 25 photographs and illustrations this is the ideal reference work for those interested in the connections between ancient places folklore and unexplained phenomena

Inauthentic Archaeologies Troy R Lovata, 2016-06-16 Archaeology has an impact on the public far beyond what any archaeologist would imagine In this concise student friendly look at the public appropriation of archaeology Troy Lovata examines outright hoaxes fanciful re creations artistic representations commercial enterprises and discredited replicas of the past The book explores examples from around the world and across time to help readers understand how the past becomes social currency for both professional archaeologists and the public at large Lovata addresses central questions of authenticity ownership of the past and the use of archaeology by everyone from artists to multinational corporations Examples include the Piltdown Hoax replica Anasazi cliff dwellings at Manitou Springs Colorado reconstructed Spanish torreons and playful Stonehenge replicas Student exercises cartoons interviews and illustrations add to the pedagogical value of this concise fascinating work for students in introductory archaeology classes The Book of Unconformities Hugh Raffles, 2022-04-18 From the author of *Insectopedia* a powerful exploration of loss grief endurance and the absences that permeate the present Unconformities are gaps in the geological record physical evidence of breaks in time For Hugh Raffles these holes in history are also fissures in feeling knowledge memory and understanding In this endlessly inventive riveting book Raffles enters these gaps drawing together threads of geology history literature philosophy and ethnography to trace the intimate connections between personal loss and world historical events and to reveal the force of absence at the core of contemporary life Through deeply researched explorations of Neolithic stone circles Icelandic lava mica from a Nazi concentration camp petrified whale blubber in Svalbard the marble prized by Manhattan s Lenape and a huge Greenlandic meteorite that arrived in New York City along with six Inuit adventurers in 1897 Raffles shows how unconformities unceasingly incite human imagination and investigation yet refuse to conform heal or disappear A journey across eons and continents The Book of Unconformities is also a journey through stone this most solid ancient and enigmatic of materials it turns out is as lively capricious willful and indifferent as time itself Thomas Hardy and the Survivals of Time Andrew Radford, 2017-03-02 A systematic exploration of Thomas Hardy s imaginative assimilation of particular Victorian sciences this study draws on and swells the widening current of scholarly attention now being paid to the cultural meanings compacted and released by the nascent sciences of man in the nineteenth century Andrew Radford here situates Hardy s fiction and poetry in a context of the new sciences of humankind that evolved during the Victorian age to accommodate an immense range of literal and

figurative excavations then taking place Combining literary close readings with broad historical analyses he explores Hardy's artistic response to geological archaeological and anthropological findings In particular he analyzes Hardy's lifelong fascination with the doctrine of survivals a term coined by E B Tylor in Primitive Culture 1871 to denote customs beliefs and practices persisting in isolation from their original cultural context Radford reveals how Hardy's subtle reworking of Tylor's doctrine offers a valuable insight into the inter penetration of science and literature during this period An important aspect of Radford's research focuses on lesser known periodical literature that grew out of a British amateur antiquarian tradition of the nineteenth century His readings of Hardy's literary notebooks disclose the degree to which Hardy's own considerable scientific knowledge was shaped by the middlebrow periodical press Thus Thomas Hardy and the Survivals of Time raises questions not only about the reception of scientific ideas but also the creation of nonspecialist forms of scientific discourse This book represents a genuinely new perspective for Hardy studies **Milestones in Archaeology** Tim

Murray,2007-04-13 This engaging work uses key discoveries events people techniques and controversies to give the general reader a rich history of archaeology from its beginnings in the 16th century to the present The history of archaeology leads from the musty collections of dilettante antiquarians to high tech science The book identifies three major developmental periods Birth of Archaeology 16th 18th centuries Archaeology of Origins and Empires 19th century and World Archaeology 20th century An introductory essay acquaints the reader with the essence of the science for each period The short entries comprising the balance of the book expand on the themes introduced in the essays Organized around personalities techniques controversies and conflicts the encyclopedia brings to life the history of archaeology It broadens the general reader's knowledge by detailing the professional significance of widely known discoveries while introducing to wider knowledge obscure but important moments in archaeology Archaeology is replete with the visionaries and swashbucklers of popular myth it is also filled with careful and dedicated scientists The Mysterious Magickal Cat D.J. Conway,2018-10-08 If a black cat crosses your path you will have good luck England If a black cat crosses your path you will have bad luck America The Magick of Claw and Whisker Very few animals have evoked such extremes in emotions from admiration to fear as the feline family Cats are mysterious mystical creatures who can do anything from predicting earthquakes and volcanic eruptions to reacting to haunted buildings and following the movement of things you can't see We are fascinated by cats and their behavior their regal bearing and their intelligence yet we are unnerved by their inscrutable stare and savage natural instincts In The Mysterious Magickal Cat you will discover The origins of cats big and small Little known details about cat anatomy and behavior How to read a cat's verbal and non verbal communication The cat in ancient history and superstition Feline deities from around the world Sacred breeds and temple lore Felines in folklore literature and art Cat spells for healing animals or humans finding a true love attracting prosperity seeking protection building courage and more Gain a complete look at this beguiling creature from what it means when a cat flicks its tail to how you can use discarded whiskers

Taking Archaeology out of Heritage Laurajane Smith, Emma Waterton, 2020-06-12 Archaeology has on the whole tended to dominate the development of public policies and practices applicable to what is often referred to as heritage This book aims to examine the conflation of heritage with archaeology that has occurred as a result To do so it asks whether archaeology can usefully contribute to critical understandings of heritage which the volume contends must consider heritage both in terms of what it is and the cultural social and political work it does in contemporary societies Archaeologists have been very successful in protecting what they perceive to be their database a success that owes much to the development and maintenance of a suite of heritage management practices that work to legitimize their privileged access to and control of that database However is archaeological data actually heritage Moreover does archaeological knowledge offer a meaningful reflection of the historic environment in terms of the uses values and associations it carries for the various and different communities or publics that engage with that environment heritage The volume brings together academic and field archaeologists academics from heritage studies and community activists from the UK and Europe more generally to debate these issues

Archaeological Theory Today Ian Hodder, 2014-02-27 Now in a revised and updated second edition this volume provides an authoritative account of the current status of archaeological theory as presented by some of its major exponents and innovators over recent decades It summarizes the latest developments in the field and looks to its future exploring some of the cutting edge ideas at the forefront of the discipline The volume captures the diversity of contemporary archaeological theory Some authors argue for an approach close to the natural sciences others for an engagement with cultural debate about representation of the past Some minimize the relevance of culture to societal change while others see it as central some focus on the contingent and the local others on long term evolution While few practitioners in theoretical archaeology would today argue for a unified disciplinary approach the authors in this volume increasingly see links and convergences between their perspectives The volume also reflects archaeology's new openness to external influences as well as the desire to contribute to wider debates The contributors examine ways in which archaeological evidence contributes to theories of evolutionary psychology as well as to the social sciences in general where theories of social relationships agency landscape and identity are informed by the long term perspective of archaeology The new edition of *Archaeological Theory Today* will continue to be essential reading for students and scholars in archaeology and in the social sciences more generally

Megalithic Research in the Netherlands, 1547-1911 Jan Albert Bakker, 2010 In the Introduction a brief general review is given of the present knowledge and ideas about the Hunebed Builders who lived some 5000 years ago during the Stone Age

Routledge Revivals: Trade, Travel and Exploration in the Middle Ages (2000) John Block Friedman, Kristen Mossler Figg, 2017-07-05 First published in 2000 *Trade Travel and Exploration An Encyclopedia* covers the people places technologies and intellectual concepts that contributed to trade travel and exploration during the Middle Ages from the years

C E 525 to 1492 This comprehensive reference work contains entries on a large number of subjects including familiar topics such as the voyages of Columbus and Marco Polo and also information that is more difficult to find for example the traditions of travel among Muslim women and the influence of Viking travel on navigation and geographical knowledge Bringing together more than 175 scholars from a variety of disciplines it minimizes Eurocentric bias and offers extensive coverage of such topics as travel within Inner Asia Mongol society and the spread of Buddhism Including an extensive map program and more than 125 illustrations as well as bibliographies a comprehensive index and see also references Medieval Trade Travel and Exploration is a valuable reference guide for undergraduate and graduate students scholars and also the general reader

Interpreting Archaeology Alexandra Alexandri,Victor Buchli,John Carman,Ian Hodder,Jonathan Last,Gavin Lucas,Michael Shanks,2013-11-19 This volume provides a forum for debate between varied approaches to the past The authors drawn from Europe North America Asia and Australasia represent many different strands of archaeology They address the philosophical issues involved in interpretation and a desire among archaeologists to come to terms with their own subjective approaches to the material they study a recognition of how past researchers have also imposed their own value systems on the evidence which they presented **Haunted Spaces, Sacred Places (Volume 2 of 2) (EasyRead Super Large 24pt Edition)** , Upon a White Horse Peter Ross,2025-09-11 I m a card carrying admirer of Peter Ross Robert Macfarlane The prehistoric sites of Britain and Ireland are places of wonder and wondering Who made these structures What did they mean to them And what do they mean to us now Bestselling author Peter Ross journeys from midwinter at Stonehenge to midsummer at Sycamore Gap Along the way he encounters bog bodies in Dublin a wooden goddess in Edinburgh and a chalk giant in Dorset He asks what it is like to live within the great stone circle at Avebury what rituals occurred in an Anglesey tomb and what draws volunteers to care for the Uffington White Horse These objects and structures speak of the long human story They offer the comfort of recognition and the pleasure of mystery There is something about ancient places that fills a hollow in our souls Upon A White Horse is a celebration of landscape and people and all that is beautiful strange and old PRAISE FOR STEEPLE CHASING A delicious treat Financial Times A charming odyssey The Times Lovely lyrical whimsical elegiac TLS Engaging New Statesman A wonderful book Daily Telegraph

Men Among the Mammoths A. Bowdoin Van Riper,1993-11 Van Riper recreates scientists first arguments for human antiquity placing these debates within the context of Victorian science Using field notes scientific reports and previously unpublished letters he shows also how the study of human prehistory brought together geologists archeologists and anthropologists in their first interdisciplinary scientific effort A vivid account of how the discovery of human antiquity forced Victorians to redefine their assumptions about human evolution and the relationship of science to Christianity *In Defiance of Time* Angus Vine,2010-06-17 In Defiance of Time contends that the antiquarian project integral to early modern literary and intellectual culture depended on the antiquaries capacity to restore in their imagination at least the fragments of the

past It offers original readings of important authors such as Leland Stow Spenser Camden Drayton and Selden **Cultural Turns/Geographical Turns** Simon Naylor,James Ryan,Ian Cook,David Crouch,2018-10-08 Introduces undergraduates to the key debates regarding space and culture and the key theoretical arguments which guide cultural geographical work This book addresses the impact significance and characteristics of the cultural turn in contemporary geography It focuses on the development of the cultural geography subdiscipline and on what has made it a peculiar and unique realm of study It demonstrates the importance of culture in the development of debates in other subdisciplines within geography and beyond In line with these previous themes the significance of space in the production of cultural values and expressions is also developed Along with its timely examination of the health of the cultural geographical subdiscipline this book is to be valued for its analysis of the impact of cultural theory on studies elsewhere in geography and of ideas of space and spatiality elsewhere in the social sciences
