Mysticism, Ritual and Religion in Drone Metal Owen Coggins, 2018-01-25 This is the first extensive scholarly study of drone metal music and its religious associations drawing on five years of ethnographic participant observation from more than 300 performances and 74 interviews plus surveys analyses of sound recordings artwork and extensive online discourse about music Owen Coggins shows that while many drone metal listeners identify as non religious their ways of engaging with and talking about drone metal are richly informed by mysticism ritual and religion He explores why language relating to mysticism and spiritual experience is so prevalent in drone metal culture and in discussion of musical experiences and practices of the genre The author develops the work of Michel de Certeau to provide an empirically grounded theory of mysticism in popular culture He argues that the marginality of the genre culture together with the extremely abstract sound produces a focus on the listeners engagement with sound and that this in turn creates a space for the open ended exploration of religiosity in extreme states of bodily consciousness

Ecological Feelings Joshua Trey Barnett, 2025-03-01 These days earthly coexistence often feels bad As environmental crises amass they cast a shadow over an imagined future and the promises of better or at least predictable days to come In times of climate chaos mass extinction and rampant environmental injustice it is easy to despair But here and there a glimmer of joy or optimism shines forth and reminds us that it is possible even necessary to love and to hope amid the ruins The contributors to this volume grapple with a plurality of interrelated ecological feelings care concern contempt empathy fear grief hope joy numbness optimism possessiveness regret and saudades Informed by a rhetorical perspective the essays collected here reveal what sets our ecological feelings into motion Crucially they also uncover some of the rhetorical practices through which we might

collectively feel our way into a more harmonious earthly coexistence **Annihilating Noise** Paul Hegarty, 2020-12-10 Noise has become a model of cultural and theoretical thinking over the last two decades Following Hegarty's influential 2007 book *Noise Music* *Annihilating Noise* discusses in sixteen essays how noise offers a way of thinking about critical resistance disruptive creativity and a complex yet enticing way of understanding the unexpected the dissonant the unfamiliar It presents noise as a negativity with no fixed identity that can only be defined in connection and opposition to meaning and order This book reaches beyond experimental music and considers noise as an idea and practice within a wide range of frameworks including social ecological and philosophical perspectives It introduces the ways in which the disruptive implications of noise impact our ways of thinking acting and organizing in the world and applies it to 21st century concerns and today's technological ecology *Dark Sound* D Ferrett, 2020-05-14 Dark sound carries the dense cultural weight of darkness it is the undertow of music that embodies melancholy desire grief violence rage pain loss and longing Compelling and unnerving dark sound immerses bodies in the darkest moments and delves into the depths of our hidden inner selves There is a strangely perverse appeal about music that conjures intense affective states and about sound that can move its listeners to the very edge of the sayable Through a series of case studies that include Moor Mother Anna Calvi Björk Chelsea Wolfe and Diamanda Gal's D Ferrett argues that the extreme limits and transgressions of dark sound not only imply the limits of language but are moreover tied to a cultural and historical association between darkness and the feminine within music and music discourse Whilst the oppressive and violent associations between darkness and femininity are acknowledged the author challenges their value to misogynistic racist capitalist and patriarchal power showing how dark sound is charged with social creative and political momentum **Tonight It's a World We Bury** Bill Peel, 2023-04-11 *Tonight It's a World We Bury* explores a range of tendencies central to black metal and uncovers their potential as critiques of capitalism *Tonight It's a World We Bury* is a radical re-writing of the history and politics of black metal music Challenging the commonly held perception that black metal is a genre of the right full of wannabe Vikings Nazis skinheads and other unsavoury characters *Tonight It's a World We Bury* looks at an array of black metal artists to re-affirm the genre as radically anticapitalist revolutionary and left wing Utilizing an eclectic range of black metal bands including Darkthrone Burzum Liturgy and Deathspell Omega and taking in the works of Marx Nietzsche Deleuze and more *Tonight It's a World We Bury* is a book on black metal like no other *The Melancholy Assemblage* Drew Daniel, 2013-04-22 *Tilting the English Renaissance* against the present moment *The Melancholy Assemblage* examines how the interpretive experience of emotion produces social bonds Placing readings of early modern painting and literature in conversation with psychoanalytic theory and assemblage theory this book argues that far from isolating its sufferers melancholy brings people together **An Anthology of Australian Albums** Jon Stratton, Jon Dale, Tony Mitchell, 2020-01-09 *An Anthology of Australian Albums* offers an overview of Australian popular music through the lens of significant yet sometimes overlooked Australian albums Chapters explore the unique qualities of each album
