government support for scientific research during the Cold War about activists and student protesters in the Vietnam era pressing for a new purpose in science about politicians creating policy that alters the course of science and also about the release of powerful entrepreneurial energies in universities and in venture capital that few realized existed Most of all it is a story about people not just biologists but also followers and opponents who knew nothing about the biological sciences yet cared deeply about how biological research was done and how the resulting knowledge was used Vettel weaves together these stories to illustrate how the biotechnology industry was born in the San Francisco Bay area examining the anomalies ironies and paradoxes that contributed to its rise Culled from oral histories university records and private corporate archives including Cetus the world's first biotechnology company this compelling history shows how a cultural and political revolution in the 1960s resulted in a new scientific order the practical application of biological knowledge supported by private investors expecting profitable returns eclipsed basic research supported by government agencies *The Rough Guide to the Czech and Slovak Republics* Rob Humphreys, 2006 Travel guide [The New York Times Biographical Service](#), 1987 A compilation of current biographical information of general interest **Slavic and East European Performance**, 1992 *Education and Society*, 1992 **The Oxford Companion to Twentieth-century Literature in English** Jenny Stringer, 1996 Survey of twentieth century English language writers and writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2 400 authors **The Economist**, 2007 *Meklenburgisches Urkundenbuch*, 1897 *TD & T.*, 2006 **Meklenburgisches Urkundenbuch, hrsg. von dem Verein für Meklenburgische Geschichte und Alterthumskunde**, 1897 [The Pall Mall Budget](#), 1884 **14th Annual Symposium on Switching & Automata Theory**, 1973 **International Relations**, 1990
