Arts of the Sung and Yüan Metropolitan Museum of Art (New York, N.Y.),1996 Writing and Literacy in Chinese, Korean and Japanese Insup Taylor,Martin M. Taylor,1995-12-07 Chinese Japanese South and North Koreans in East Asia have a long intertwined and distinguished cultural history and have achieved or are in the process of achieving spectacular economic success Together these three peoples make up one quarter of the world population They use a variety of unique and fascinating writing systems logographic Chinese characters of ancient origin as well as phonetic systems of syllabaries and alphabets The book describes often in comparison with English how the Chinese Korean and Japanese writing systems originated and developed how each relates to its spoken language how it is learned or taught how it can be computerized and how it relates to the past and present literacy education and culture of its users Intimately familiar with the three East Asian cultures Insup Taylor with the assistance of Martin Taylor has written an accessible and highly readable book Writing and Literacy in Chinese Korean and Japanese is intended for academic readers students in East Asian Studies linguistics education psychology as well as for the general public parents business government Readers of the book will learn about the interrelated cultural histories of China Korea and Japan but mainly about the various writing systems some exotic some familiar some simple some complex but all fascinating *China's Solution to Its Ethno-national Issues* Shiyuan Hao,2019-10-11 This book focuses on the global issue of ethnic problems and examines the theory and practice of how China addresses its ethnic problems from a macro perspective following the guidelines formulated by the working conference on ethnic affairs of the Central Committee of Chinese Communist Party in 2014 Based on comparative and empirical studies it also analyzes specific solutions to ethnic problems in contemporary China such as how the country has succeeded in redressing material inequalities among different ethnic groups allowing these groups to share in the country s development and gain recognition and acceptance The Oracle Bone Inscriptions from Huayuanzhuang East Adam C. Schwartz,2019-11-18 Since 1899 more than 73 000 pieces of inscribed divination shell and bone have been found inside the moated enclosure of the Anyang core at the former capital of the late Shang state Nearly all of these divinations were done on behalf of the Shang kingsand has led to the apt characterization that oracle bone inscriptions describe their motivations experiences and priorities There are however much smaller sets of divination accounts that were done on behalf of members of the Shang elite other than the king First noticed in the early 1930 s grouped and periodized shortly thereafter oracle bone inscriptions produced explicitly by or on behalf of royal familygroups reveal information about key aspects of daily life in Shang societythat are barely even mentioned in Western scholarship The newly published Huayuanzhuang East Oracle Bone inscriptions are a spectacular addition to the corpus of texts from Anyang hundreds of intact or largely intact turtle shells and bovine scapulae densely inscribed with records of the divinations in which they were used They were produced on the behalf of a mature prince of the royal family whose parents both alive and still very much active almost certainly were the

twenty first Shang king Wu Ding r c 1200 B C and his consort Lady Hao fu Hao The Huayuanzhuang East corpus is an unusually homogeneous set of more than two thousand five hundred divination records produced over a short period of time on behalf of a prince of the royal family There are typically multiple records of divinations regarding the same or similar topics that can be synchronized together which not only allows for remarkable access into the esoteric world of divination practice but also produce micro reconstructions of what is essentially East Asia s earliest and most complete day and month planner Because these texts are unusually linguistically transparent and well preserved homogeneous in orthography and content and published to an unprecedentedly high standard they are also ideal material for learning to read and interpret early epigraphic texts The Huayuanzhuang East oracle bone inscriptions are a tremendously important Shang archive of material documents that were produced by a previously unknown divination and scribal organization They expose us to an entirely fresh set of perspectives and preoccupations centering on a member of the royal family at the commencement of China s historical period The completely annotated English translation of the inscriptions is the first of its kind and is a vibrant new source of Shang history that can be accessed to rewrite and supplement what we know about early Chinese civilization and life in the ancient world Before the discerning reader are the motives preoccupations and experiences of a late Shang prince working simultaneously in service both for his Majesty his parents and his own family
