Origins Craig Schwab:

Origins Craig Schwab, 2015-12-08 *Origins* is the second collection of essays from Craig Schwab. The topics covered in this volume range from discussions on the state of our modern world. Essays discuss music in *The Desert Island Music Soundtrack* and *My Mother's Cuckoo Clock*. The Effects of Full Moon Nights on Family Dynamics a commentary about why many people do not get along in our society to the zany discussion about how the board game *Parcheesi* can remedy how we better understand terrorism. At times comical and evocative these essays share a unique perspective on all things relevant to life in the 21st Century. Craig Schwab is the author of *Something in the Neighborhood of Real* his coming of age novel about growing up in his hometown of Glendale NY.

What Teachers Need to Know Matthew Bruce Etherington, 2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable but pesky questions always remain such as how can teaching and learning be conducted in ways that satisfies and respects everyone. What are the parameters of an inclusive pedagogy? Who defines its principles? How should these principles be taught and by whom? And by what authority shall they be grounded? These types of thorny questions occupy the essence of educators and the authors of this book. This book is about teachers, educators and topics related to inclusion. Teachers and educators have a lot to know therefore the topics are broad and relevant to the times. What should teachers know about special needs, religion and spirituality, Aboriginality, the environment, tolerance and school choice? Although teachers have knowledge of their subject matter, knowledge alone is not sufficient. They must know and understand how people learn. A teacher must also care deeply about who they teach. And this teacher knowledge grows and changes over time as teachers become more experienced, informed, skilled and wiser. At the same time, no teacher preparation will be sufficient because there will always be discussions that were never had and knowledge that was never shared. Time has its costs and there is only so much a formal education can prepare someone. This book helps to satisfy a cavity in learning for teachers and educators in general.

Learning, Leading, and the Best-Loved Self in Teaching and Teacher Education Cheryl J. Craig, Denise M. McDonald, Gayle A. Curtis, 2022-12-10 This book explores the concept of the best loved self in teaching and teacher education, asserting that the best loved self is foundational to the development of teacher identity, growth in context and learning in community. Drawing on the work of Joseph Schwab who was the first to name the best loved self, the editors and their contributors extend this knowledge further through the collaboration of their group of teacher educators known as the Faculty Academy who have been involved in examining teacher education for over two decades.

Wo liegt die Humanitäre Schweiz? Miriam Baumeister, Thomas Brückner, Patrick Sonnack, 2018-11-08 Die Schweiz r hmt sich gern ihrer Humanit ren Tradition. Doch diese Meistererz hlung verhaftet oft an altbekannten Zeugnissen. Sie erz hlen von der Hilfe in den Weltkriegen und dem gro z gigen Schweizer Spendenverhalten. Sie verweisen auf die langj hrigen Aktivit ten schweizerischer humanit rer Institutionen. Dieses Buch sucht neue Perspektiven auf das humanit re Handeln der Schweizerinnen und Schweizer in transnationalen Kontexten, die die Rede

The Harder You Work, the Luckier You Get Joe Ricketts, 2019-11-05 Joe Ricketts founder of TD Ameritrade shares the epic inside story of how a working class kid from the Nebraska prairie took on Wall Street's clubby brokerage business, busted it open, and walked away a billionaire. Joe Ricketts always had the gift of seeing what others missed. The son of a house builder, he started life as a part-time janitor, but by the age of thirty-three he saw the chance to challenge the big brokerage firms by offering Americans an inexpensive way to take control of their own stock trading. Nowadays we take for granted that Main Street is playing right there on Wall Street, but Ricketts made that happen. His company, begun with 12,500 borrowed from friends and family, took off like a rocket thanks to an early embrace of digital technology and irreverent marketing. But Ameritrade also faced a series of near-disasters: the SEC almost shut him down, his partners tried to force him out because of his relentless risk-taking, penny brokers swindled the company, the crash of 1989 nearly cost him everything, and he was almost shut down again when a customer committed massive fraud. By the time of the dot-com bust, he had proven that his strategy, based on frontier values, could survive just about anything. *The Harder You Work, The Luckier You Get* offers a view inside Joe Ricketts' mind, giving readers a visceral understanding of how entrepreneurs think and act differently from the rest of us, how they see the horizon where we just see a spreadsheet. As unvarnished as the prairie he comes from, Ricketts also talks honestly about his shortcomings as a manager, the career sacrifices his wife made for his business, the complexity of being a father, and the pain of splitting with his mentor and of his brother's death from AIDS. Overcoming these and other challenges, he built a company now worth 30 billion. A must-read for anyone who's ever dreamed of starting their own business. *The Harder You Work, The Luckier You Get* is the ultimate only-in-America story.

Disaster in the Early Modern World Ovanes Akopyan, David Rosenthal, 2023-11-17 How did early modern societies think about disasters such as earthquakes or floods? How did they represent disaster, and how did they intervene to mitigate its destructive effects? This collection showcases the breadth of new work on the period ca. 1300-1750, covering topics that range from new thinking about risk and securitisation to the protection of dikes from shipworm, and with a geography that extends from Europe to Spanish America. The volume places early modern disaster studies squarely at the intersection of intellectual, cultural, and socio-economic history. This period witnessed fresh speculation on nature, the diffusion of disaster narratives and imagery, and unprecedented attempts to control the physical world. The book will be essential to specialists and students of environmental history and disaster, as well as general readers who seek to discover how pre-industrial societies addressed some of the same foundational issues we grapple with today.
