An Interdisciplinary Approach to Aging, Biohacking and Technology L.F. Carver, 2023-12-19

An Interdisciplinary Approach to Aging Biohacking and Technology focuses on a broad range of issues that cover everything from the most basic ways technology and biohacking influence people's everyday lives to concerns about equity, globalization and how we humans produce, consume and are consumed by our technologies. This edited collection looks at the intersection between technology and aging, addressing the ways in which technology affects individuals, groups, local communities and entire populations. Contributions from a range of disciplines including sociology, philosophy, communications, medicine and religion provide interdisciplinary perspectives addressing questions such as: What is the impact of technology on adult bodies, our well-being and our safety? The book explores risks such as surveillance technology, body modification and the Internet, as well as issues in the aging journey such as the body and its modification, communication, privacy and surveillance, gerontechnology and aging in place. Critically examining the journey of ageing and exploring techniques such as biohacking, this book is for students studying aging and technology, including courses such as psychology, sociology, philosophy, cultural studies, health studies and gerontology. It will also be of interest to scholars who are curious about an interdisciplinary approach to age and technology.

Speaking of Animals Robert Palmatier, 1995-04-30

No other nonhuman source has served as the basis for more metaphors than animals. *Speaking of Animals* is a dictionary of animal metaphors that are current in American English. It is comprehensive, historical and metaphor-based. Each entry refers to the other dictionaries that catalog that same metaphor and the dates of first appearance in writing are supplied where possible for both the metaphor and the name of the source. The main text is organized alphabetically by metaphor rather than by animal or animal behavior; all the metaphors are classified according to their animal source in a list at the end of the book. An

animal metaphor is a word phrase or sentence that expresses a resemblance or similarity between someone or something and a particular animal or animal class True metaphors are single words such as the noun tiger the verb hog and the adjective chicken Phrasal metaphors combine true metaphors with other words such as blind tiger hog the road and chicken colonel Other animal metaphors take the form of similes such as like rats leaving a sinking ship and prickly as a hedgehog Still others take the form of proverbs such as Don t count your chickens before they hatch and Let sleeping dogs lie The horse is the animal most frequently referred to in metaphors followed closely by the dog The Bible is the most prolific literary source of animal metaphors followed closely by Shakespeare **The Irish Law Times and Solicitors' Journal** ,1894
