The Pregnancy Experience McKenzie Nelson, 2024-08-07 In 2023 there were about 368 000 births daily in the world With today's scientific competencies every single one of those people was birthed by a woman So why is there still so much mystery involved in the process Your body is hardwired to do this but that doesn't mean you have any idea what you're about to go through Why did I not know what to mentally prepare myself for during the growth and delivery of my baby Why did I have no idea what would happen to me at the hospital Why did I think my body was done with baby things after forty weeks Why has the normal for advice passed down woman to woman about pregnancy become Yes it'll hurt but you don't remember that in the end or four hundred plus page books that take forever to read and are more biology than helpful tips And why have we as a society written that off as okay We would never expect someone to go into a new job with little to no instruction And when a new employee asks hard hitting questions in detail and points out faults in the process for correction we give them an award we don't pointedly avoid their questions and tell them this is how things are So why are so many women expected to go into the hospital blind not having any idea what to expect during their delivery besides you push and a baby pops out You are going through a fast paced life altering experience so you need a fast paced guide on what to expect for the near future and what you should know to expect from your body and mind during this wonderful experience The birth of my child was fully worth everything I went through in this book however I could have experienced less fear anxiety and emotional strain with my husband during my pregnancy had I known what to expect and prepare for from preconception to postbirth normalcy

Hacking His Code Lark Anderson, 2024-02-13 I must confess I did something very naughty And I haven t learned my lesson I was late on tuition In a mountain of debt And morally obligated to grant my mother s dying wish to get my college degree Which is why I was on the seedy underbelly of the internet cruising for a hacking job I had no idea Hunter Davies the elusive tech giant was watching me and when I passed his little impromptu pop quiz he sent armed men to bring me to his estate And let me tell you he is a piece of work He s disgustingly rich with arrogance in spades He should be in jail for what he s done to me But he offered me a job One that could make all my problems disappear And as much as I hate to admit it he s flippin other worldly levels of gorgeous Now I have one week to solve a 24 year old cold case or else I go home empty handed Just one catch I have to pretend to be his girlfriend in front of his parents who are itching for grandkids I agree to his terms and somehow one thing leads to another and I wake up in his bed This is not how the job was supposed to go I hate men they can t be trusted But the more I learn about Hunter the less my logic makes sense I m supposed to be solving one of the greatest mysteries of our time not falling in love And as I m about to find out if I don t figure this all out soon it could cost us everything
