Delivers a comprehensive toolbox for understanding race and racism at structural, institutional, and individual levels. This nursing handbook introduces and defines key terms about race and racism for nurses, nursing students, and nurse educators. It moves beyond a focus on multicultural approaches for understanding inequity toward a recognition of the broader impact that both systemic and structural racism have had on inequality in health and life opportunities. In concise chapters with brief paragraphs and bulleted information, this practical handbook offers strategies for how to productively engage in a dialogue about race and racism. It considers the history of racism in the United States and then breaks down how it operates at structural, institutional, and individual levels.
