four American shoppers will buy something only if it's on sale and almost half of all merchandise carries a promotional price. The relentless pursuit of deals has totally disrupted the relationship between buyers and sellers. In this playful well-researched book, journalist Mark Ellwood investigates what happens to markets when everything's negotiable. *Digital Media Distribution* Paul McDonald, Courtney Brannon Donoghue, Timothy Havens, 2021-09-07. A deep dive into the new era of digital content production and distribution. In the twenty-first century, the platforms that both create and host content have become nearly as important as media itself. Companies such as Netflix, Spotify, and YouTube have attained a massive hold on the public imagination and have become an almost ineluctable part of people's everyday lives. While the workings of media distribution had until very recently remained inconsequential to the average consumer, the recent popularization of various online platforms has made the question of distribution immediate to everyone. *Digital Media Distribution: Portals, Platforms, Pipelines* provides a timely examination of the multifaceted distribution landscape in a moment of transformation and conceptualizes media distribution as a complex site of power, privilege, and gatekeeping. These tensions have local, national, and global consequences on the autonomy of creative workers as well as on how we gain access to, engage with, and understand cultural products. Drawing on original research into distribution practices in industries as diverse as television, film, videogames, literature, and adult entertainment, each chapter explores how digitization has changed media distribution and its broader economic, industrial, social, and cultural implications. Bringing together experts from around the world and across the media industries, *Digital Media Distribution: Portals, Platforms, Pipelines* presents a vast array of critical approaches and illustrative case studies for understanding the factors that have an impact on the way media travels and moves throughout our digital lives. *Embarrassment of Product Choices 1* Michel Millot, 2018-10-08. When there are too many choices, there is no choice. The choices are entangled in a maze of rather confused possibilities. They go through many nebulous paths. Doubt, hesitation, indecision become the only resolutions possible. Choosing is the anxiety of being wrong. The brand, the quality-price ratio, the aesthetics give confidence, but often with naivety. There is a gap between the reality of the qualities of the products and the perception of the customer. These are prejudices, illusions, a lack of knowledge. Generally speaking, is the consumer/client able to appreciate by sight, by touch, or even by a brief trial of operation, all the strengths and weaknesses of a lot of products? Market value dominates the use value. Marketing will discover that we must no longer confuse the consumer, the customer, and the user. The economic system only works because consumers are in the opacity of their choices. The search for technical prowess and, above all, market value has dominated the search for value in use. **My Digital Entertainment for Seniors (Covers movies, TV, music, books and more on your smartphone, tablet, or computer)** Jason R.
