A Cash-Free Society Kai A. Olsen, 2018-08-10 Information technology is changing the world through automation by bypassing middlemen and by digitization We see dramatic effects today in the music industry going from CDs to streaming in newspapers from paper to online and in the banking industry from branch offices to the Internet One of the most fundamental changes is the replacement of physical cash money and coins by bits in a computer A Cash Free Society is about this dramatic change It shows the advantages and disadvantages and discuss how we consumers businesses and the society can prepare for a new world where cash is no longer king Banks are closing down branch offices and removing cash services Customers wishing to withdraw money as cash are directed to ATMs But the number of ATMs is declining Mobile payments either for paying bills or for person to person transactions will be the last nail in the coffin for cash These changes are fed by the overwhelming advantages both for consumers and businesses to electronic payments In the countries that lead this transition to a digital economy Iceland Norway Sweden and Denmark nearly all transactions both in volume and number are digital Today less than 3 percent of consumer payments are in cash in Norway Though there are some disadvantages there are clear benefits cheaper transactions less crime simpler tax processing and it will become more difficult to operate in the black market economy
