Create a Brand That Commands Premium Prices: The Psychology of Perceived Value Simon Schroth, 2025-04-02 In the competitive world of business price is often a major differentiator but how do you justify charging premium prices Create a Brand That Commands Premium Prices teaches you how to build a brand that exudes value and authority allowing you to command top tier pricing in any industry This book reveals the secrets behind the psychology of perceived value how customers make purchasing decisions based on more than just price You ll learn how to craft a brand story that resonates emotionally with your audience create premium products or services and deliver exceptional customer experiences that justify high end prices The book also covers pricing strategies positioning techniques and how to use scarcity exclusivity and prestige to elevate your brand in the eyes of your target market Create a Brand That Commands Premium Prices is ideal for entrepreneurs small business owners and marketers who want to stop competing on price and start positioning themselves as premium providers By the end of the book you ll have the tools to elevate your brand increase your margins and attract high value clients who are willing to pay for quality

Market-Value Pricing Gabriel Steinhardt, 2019-01-31 This book highlights essential concepts models and processes that help those responsible for making pricing decisions whether professionally or privately to effectively engage in product pricing activities Novel straightforward and clearly structured the Blackblot Market Value Pricing™ Model MVP Model

introduced in this book employs a market value centric pricing process that offers step by step guidance on the managerial decisions that help determine a product's price. This intentionally succinct, highly readable and practical book provides practitioners with the knowledge and tools they need in order to approach pricing activities in an organized and efficient manner.

Apple in China Patrick McGee, 2025-05-13 Phenomenal a jaw dropping book. Jon Stewart The Daily Show Named by both The New York Times and The Economist as one of the best books of the year so far, this scrupulously reported The New Yorker and astonishing The Daily Telegraph London book rivets with its portrayal of how Apple allowed itself to become dependent on China for a huge percentage of its manufacturing, making it vulnerable and unwittingly laying the groundwork for the Asian superpower to rival the US in technological expertise. After struggling to build its products on three continents, Apple was lured by China's seemingly inexhaustible supply of cheap labor. Soon it was sending thousands of engineers across the Pacific, training millions of workers and spending hundreds of billions of dollars to create the world's most sophisticated supply chain. These capabilities enabled Apple to build the 21st century's most iconic products in staggering volume and for enormous profit. Without explicitly intending to, Apple built an advanced electronics industry within China, only to discover that its massive investments in technology upgrades had inadvertently given Beijing a power that could be weaponized. In *Apple in China*, journalist Patrick McGee draws on more than two hundred interviews with former executives and engineers, supplementing their stories with unreported meetings held by Steve Jobs, emails between top executives and internal memos regarding threats from Chinese competition. The book highlights the unknown characters who were instrumental in Apple's ascent and who tried to forge a different path, including the Mormon missionary who established the Apple Store in China, the Gang of Eight executives tasked with placating Beijing, and an idealistic veteran whose hopes of improving the lives of factory workers were crushed by both Cupertino's operational demands and Xi Jinping's war on civil society. *Apple in China* is the sometimes disturbing and always revelatory story of how an outspoken, proud company that once praised rebels and troublemakers, the company that encouraged us all to Think Different, devolved into passively cooperating with a belligerent regime that increasingly controls its fate.

Managerial Economics: Concepts, Applications, and Strategies Ms. Poornima Teotia, Ms. Nidhi Khaiwal, 2025-04-04

The Pricing Puzzle Jan Y. Yang, 2020-08-24 The price of virtually any product or service can reveal intriguing stories. The author looks back at his own decade-long pricing journey and shares some of the most exciting and insightful pricing stories, allowing readers to see the world from a different angle. From pricing a chilled Coke in Tehran to iPhone to explaining the fall of MUJI, this book reveals the rationales behind and outcomes of various pricing strategies. The author also presents a number of stories from China, a price wonderland in which he both as a consumer and a pricing consultant has observed unconventional pricing practices rarely found elsewhere, such as the frequent use of negative prices among tech unicorns, i.e. sellers paying consumers to use their products. Structured as a collection of short stories, the book offers a delightful and eye-opening reading experience for

business owners managers and anyone interested in understanding what prices are and how pricing works and interacts with us as customers

New Venture Management Donald F. Kuratko, Jeffrey S. Hornsby, 2020-12-28 The third edition of this practical textbook provides an introduction to the world of new and emerging ventures and to the fundamentals of effective new venture management including such diverse activities as planning marketing financing and growth This textbook is divided into four distinct parts guiding readers through the entire new venture management process and focusing in turn on ideas and opportunities planning finance and management challenges All chapters of this revised edition feature international cases and the complete business plan has been replaced with a contemporary version Other new elements to the third edition include Expanded coverage of the Lean Startup methodology Improved focus on the development and importance of teams A new section on the emergence of equity crowdfunding Further discussion of ethics and the dangers of dramatic scaling Presented in an easy to understand style this book will be a valuable resource for undergraduate and postgraduate students in entrepreneurship and new venture management classes as well as active new venture owners and managers Online resources include an instructor s manual test bank PowerPoint slides and additional materials to aid instructors and students in applying their knowledge

Visionary Pricing Gerald E. Smith, 2012-11-29 Presents the thinking from preeminent pricing thought leaders from North America Europe and Asia who originally came together many years ago to encourage the development of pricing In this book they assess the present and future destiny of pricing pricing innovation and pricing paradigms that are influencing the evolution of pricing

Pricing Gábor REKETTYE, Jonathan Liu, 2018-05-23 Pricing The New Frontier by G bor REKETTYE and Jonathan LIU Published May 2018 The importance of pricing and price management is growing all over the world primarily due to the turbulent economic situation accelerating technological development the saturation of markets and the globalization of competition All these trends affect the achievement of company objectives place prices pricing and price management in a context that differs greatly from what has been known before In developing and fast moving economies like India getting the pricing strategy right is a necessity for the short and long term future of the firm The pricing decision will impact on the profitability and ultimately on the performance of the firm Executives and managers responsible making pricing decisions will find this book useful and informative in shedding light on an area that is complicate and complex Dr M K Nandakumar Associate Professor of Strategic Management Indian Institute of Management Kozhikode India Leading technological development across the world requires an in depth understanding of the impact of the pricing decision and business strategy This book will give its readers a clear understanding of impact of the pricing decision on the industry the customer and its competitors I fully recommend and endorse this book Jeff C K Lim BU Deputy CEO at ASM Pacific Technology Ltd Singapore Pricing of goods and services is a critical decision that creates immediate competitive advantage This book explains the principles of pricing clearly and concisely It seamlessly knits concept and practice It is a useful text book but also useful to practicing managers charged with challenging task of pricing

goods and services I strongly recommend the book to practitioners and students Professor Abby Ghobadian FBAM FAcSS CCMi Professor of Management Henley Business School United Kingdom At a time when almost continuous change is disrupting nearly all industries and the internet is putting ever more power in the hands of the customer a book that treats pricing with substance and foresight is a welcome addition to the market Professor John R Schermerhorn Jr O Bleness Professor Emeritus Ohio University United States In contemporary business pricing is much more than just the money equivalent of the product value This book provides a high quality review of different concepts and issues regarding pricing from different stakeholders perspectives It can be recommended both as students textbook as well as a managers toolkit for making strategic and tactical pricing decisions Professor Mirna Leko imi Professor of Marketing at Faculty of Economics at J J Strossmayer University of Osijek Croatia Price is the value that is attached to a product or service and is usually the result of complex set of calculations research and risk analysis This book provides comprehensive and understandable strategies and tactics that one may use to price a product or service in our current the multi faceted operating environment It is a great resource for both practitioners and academics Dr Dolores Rinke CPA Professor Emerita Purdue University United States In a fast changing world with fierce competition pricing has been increasingly the new frontier and battle field for business operations Dynamic pricing needs to be deployed as the brand new strategy for global organizations to gain competitive advantages and sustainable profit growth This book provides insightful knowledge of the dynamics of setting price in a networked global context and enables academics and professionals to have a clear understanding of the principle and practice Dr Xinping Shi Associate Professor of Information and Operations Management Hong Kong Baptist University Hong Kong SAR China Getting the pricing of products and services right is challenging and difficult It is more complicated in a globalized world and further challenging when it is across different types of economies This book will offer guidance in setting and negotiating prices for trading across borders and on the digital platform and will prove useful for practitioners and students I highly recommend the book Professor Vincent XG Qi PhD FRAI Wolfson College University of Cambridge Marcel Mauss Chair Distinguished Professor of Global Supply Chain Management and Business Anthropology Anshan Normal University in China Contents PART 1 PRICING BASICS Chapter 1 PRICING IN FOCUS Chapter 2 THE ECONOMICS OF PRICING Chapter 3 CUSTOMERS PRICE PERCEPTION Chapter 4 PRICES COSTS AND PROFIT Chapter 5 METHODS OF PRICE SETTING PART 2 STRATEGIES AND TACTICS OF PRICING Chapter 6 PRICING STRATEGY Chapter 7 PRODUCT LIFE CYCLE PRICING Chapter 8 DYNAMIC PRICING Chapter 9 PRODUCT LINES PRICING Chapter 10 PRICE BUNDLING PART 3 INTERMEDIARY PRICING Chapter 11 PRICING ACROSS THE MARKETING CHANNELS Chapter 12 RETAIL AND WHOLESALE PRICING Chapter 13 PRICING IN INTERNATIONAL MARKETS Chapter 14 SUCCESSFUL PRICE NEGOTIATIONS Bibliography Index Product Details ISBN 9781910781944 Publisher Transnational Press London Published 23 May 2018 Language English Pages 320 Interior Ink Black white Weight approx 0 65 kg Dimensions approx 18 9cm wide x

24 59cm tall **PC Mag** ,2007-08-07 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Lessons in Corporate Finance* Paul Asquith, Lawrence A. Brand Identity Prism The New Strategic Brand Management remains at the forefront of strategic brand thinking *Apple. Then and now* Billy George, 2014-03-14 Seminar paper from the year 2013 in the subject Business economics Operations Research grade A Monash University Melbourne language English abstract Apple One of the most famous organizations in the world known for its technical innovation year on year was founded on 1st April 1976 and headquartered at California Apple is known for its software desktop laptops mobile I Phones I Pod applications television I Pad etc About Apple 2013 Apple has been on the continuous verge of innovation since its time of incorporation Founded by Late Mr Steve Jobs this company was known for its product launch especially The biggest example of dedication towards new viewpoint and innovation was seen in 2007 the day Apple Computers was named Apple Steve Jobs announced the new I Phone this gave the world a news which company is now diversifying and going on different product lines Apple 2007 In last five six years Apple has been showcasing its innovation and challenging their own products again and again Although they are coming up with product and software up gradation recently we now expect some major new product and new software development

Strategies for High-Tech Firms P.M. Rao, Joseph A. Klein, 2015-01-28 This is the first book to present marketing strategy of high tech products and services in a legal economic and global context From software to hardware from pharmaceuticals to digital movies and TV the authors argue that the understanding of intellectual property rights IPRs is essential to devising effective marketing strategies **The New World of Economics** Richard B. McKenzie, Gordon Tullock, 2012-05-16 The New World of Economics 6th edition by Richard McKenzie and Gordon Tullock represents a revival of a classic text that when it was first published changed substantially the way economics would be taught at the introductory and advanced levels of economics for all time In a very real sense many contemporary general audience economics books that seek to apply the economic way of thinking to an unbounded array of social issues have grown out of the disciplinary tradition established by earlier editions of The New World of Economics This new edition of The New World will expose new generations of economics students to how McKenzie and Tullock have applied in a lucid manner a relatively small number of economic concepts and principles to a cluster of topics that have been in the book from its first release and to a larger number of topics that are new to this edition with the focus of the new topics on showing students how economic thinking can be applied to business decision making This edition continues the book's tradition of taking contrarian stances on important economic issues Economics professors have long reported that The New World is a rare book in that students will read it without being required to do so *The Strategy and Tactics of Pricing* Thomas T. Nagle, Georg Müller, 2017-11-20 The Strategy and Tactics of Pricing explains how to manage markets strategically and how to grow more profitably Rather than calculating prices to cover costs or achieve sales goals students will learn to make strategic pricing decisions that proactively manage customer perceptions of value motivate purchasing decisions and shift demand curves This edition features a new discussion on harnessing concepts from behavioral economics as well as a more streamlined value cascade

structure to the topics Readers will also benefit from Major revisions to almost half of the chapters including an expanded discussion of big data analytics and a revised chapter on Specialized Strategies which addresses timely technical issues like foreign exchange risks reactions to market slumps and managing transfer prices between independent profit centers A completely rewritten chapter on Creating a Strategic Pricing Capability which shows readers how to implement the principles of value based strategic pricing successfully in their organizations In chapter textboxes updated to provide walk through examples of current pricing challenges revenue models enabled by an increasingly digital economy and advances in buyer decision making explained through classic principles that still apply today Chapter summaries and visual aids which help readers grasp the theoretical frameworks and actionable principles of pricing analysis This comprehensive managerially focused text is a must read for students and professionals with an interest in strategic marketing and pricing A companion website features PowerPoint slides and an instructor s manual including exercises mini cases and examination questions

outreach has inspired countless individuals to pursue careers in finance and has significantly advanced the field of corporate valuation

Strategic Pricing and Management Accounting David Dugdale, 2022-11-11 Management accountants should have a key role to play in developing and executing pricing strategy and policy. However, their historical focus on costing and operations means that their potential as business partners with marketing and sales professionals is easily overlooked. This book focuses on how management accountants can help key stakeholders in the formulation and execution of pricing policy and conversely on showing managers responsible for pricing decisions how they could be helped by management accountants. It equips management accountants with a unique overview of pricing theory, the practical quantitative techniques they should know, and the value they can bring to the pricing function. The book analyses segmentation value to customer price value maps, segmental pricing, product differentiation, and dynamic pricing with traditional economic theory, showing how these ideas have implications for management accountants and the value that they can bring to the business. Differences in customer value have been integral to economic theory for decades, and price discrimination, the technique of charging different prices to different customers for the same or similar goods, is well established. This observation provides the central core of this book. The methods of price discrimination are set out in detail, showing how management accountants can bring their analytical skills to bear in helping executives and pricing professionals take advantage of differences in customer valuation to improve profits. The book provides a thorough overview of the field and offers a good introduction for researchers and students. Equally, the book shows managers, marketers, and pricing professionals how management accountants can assist them in delivering better pricing practice.

Technology and Oligopoly Capitalism Luis Suarez-Villa, 2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America's social, economic, and political reality. Technology oligopolies are the most powerful socioeconomic entities in America. From cradle to grave, the decisions they make affect the most intimate aspects of our lives: how we work, what we eat, our health, how we communicate, what we know and believe, whom we elect, and how we relate to one another and to nature. Their power over markets, trade, regulation, and most every aspect of our governance is more intrusive and farther reaching than ever. They benefit from tax breaks, government guarantees, and bailouts that we must pay for and have no control over. Their accumulation of capital creates immense wealth for a minuscule elite, deepening disparities while politics and governance become ever more subservient to their power. They determine our skills and transform employment through the tools and services they create, as no other organizations can. They produce a vast array of goods and services with labor, marketing, and research that are more intrusively controlled than ever, as workplace rights and job security are curtailed or disappear. Our consumption of their products and their capacity to promote wants is deep and far reaching, while the waste they generate raises concerns about the survival of life on our planet. And their links to geopolitics and the martial domain are stronger than ever, as they influence how warfare is waged and who will be vanquished.

Technology and Oligopoly Capitalism's critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena. An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power. Numerous previously unpublished ideas expand the repertory of established work on the topics covered, advancing explanatory quality to elucidate how and why technology oligopolies operate as they do, the dysfunctions that accompany their power, and their effects on society and nature. This book has no peers in the literature in its scope, the unprecedented amount and diversity of documentation, the breadth of concepts, and the vast number of examples it provides. Its premises deserve to be taken into account by every student, researcher, policymaker, and author interested in the socioeconomic and political dimensions of technology in America.

Unveiling the Energy of Verbal Art: An Mental Sojourn through **Latest Iphone Prices**

In a global inundated with screens and the cacophony of immediate communication, the profound energy and mental resonance of verbal beauty frequently disappear in to obscurity, eclipsed by the constant onslaught of sound and distractions. Yet, nestled within the musical pages of **Latest Iphone Prices**, a fascinating perform of literary elegance that pulses with raw feelings, lies an unique journey waiting to be embarked upon. Published by a virtuoso wordsmith, that enchanting opus courses visitors on a psychological odyssey, gently revealing the latent possible and profound influence embedded within the intricate web of language. Within the heart-wrenching expanse with this evocative evaluation, we shall embark upon an introspective exploration of the book is main themes, dissect their fascinating publishing model, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
