The Whole Food Pregnancy Plan Aimee Aristotelous, 2022-04-12. Get both mama and baby on track for a healthy, happy and delicious life. We all know that you are what you eat. And once you conceive your baby is what you eat as well. Prenatal health and nutrition during pregnancy is so imperative. The US is one of only eight countries in the world where the rate of mortality for pregnant women is on the rise and obesity is one of the primary causes of this phenomenon. Half of all pregnant women are considered overweight. Widely accepted doctor and dietitian prescribed nutrition guidelines actually may be contributing to the growing obesity and gestational diabetes epidemics. Newly expectant mothers receive a packet of health information from their doctors including a nutrition pamphlet which proscribes a daily food regimen with 100 grams of sugar per day, the amount of sugar in 10 glazed donuts. Aimee has developed a comprehensive nutrition guide that helps expecting and postpartum women achieve ideal health and weight during pregnancy and beyond. Implementing philosophies of current highly effective gluten free nutrition trends that have not been fully introduced to the prenatal and postpartum populations. *The Whole Pregnancy* offers a detailed dietary regimen that is based on whole and unprocessed foods, low glycemic carbohydrates, quality proteins and essential fats. Developed by a certified nutritionist, the meal planning system presents a variety of simple, delicious recipes to benefit mother and baby. It also provides special instruction for each stage of pregnancy including the first, second and third trimesters as well as the fourth trimester of postpartum weight loss and nursing.
