Grant, Jennifer Harman Meadows, 2012 How do people in business keep up with the trends and how do they differentiate good information from bad information How do they consider the environmental and sustainability issues surrounding communication technology This book answers these questions Provided by publisher **The Athlete as National Symbol** Nicholas Villanueva, Jr., 2020-01-17 Examining the phenomenon of nationalism in the world of sport this collection of new essays identifies moments when athletes became national symbols through their actions on and off the field Since the break up of the Soviet Union and Yugoslavia and related global events of the 1980s and 1990s scholars have explored how race ethnicity gender and sexuality shape and are shaped by nationalism and national participation Topics include race golf and the struggle for social justice in South Africa sport as a battleground within the Israel Palestine conflict multiculturalism and the Olympic Games and white privilege in sport These case studies explore the strength and fragility associated with national identity and how athletes become icons for their nations **Managing the Myths of Health Care** Henry Mintzberg, 2017-05-15 Health care is not failing but succeeding expensively and we don't want to pay for it So the administrations public and private alike intervene to cut costs and herein lies the failure In this sure to be controversial book leading management thinker Henry Mintzberg turns his attention to reframing the management and organization of health care The problem is not management per se but a form of remote control management detached from the operations yet determined to control them It reorganizes relentlessly measures like mad promotes a heroic form of leadership favors competition where the need is for cooperation and pretends that the calling of health care should be managed like a business Management in health care should be about dedicated and continuous care more than interventionist and episodic cures This professional form of organizing is the source of health care's great strength as well as its debilitating weakness In its administration as in its operations it categorizes whatever it can to apply standardized practices whose results can be measured When the categories fit this works wonderfully well The physician diagnoses appendicitis and operates some administrator ticks the appropriate box and pays But what happens when the fit

fails when patients fall outside the categories or across several categories or need to be treated as people beneath the categories or when the managers and professionals pass each other like ships in the night To cope with all this Mintzberg says that we need to reorganize our heads instead of our institutions He discusses how we can think differently about systems and strategies sectors and scale measurement and management leadership and organization competition and collaboration Market control of health care is crass state control is crude professional control is closed We need all three in their place The overall message of Mintzberg s masterful analysis is that care cure control and community have to work together within health care institutions and across them to deliver quantity quality and equality simultaneously
