Kent,2016-11-10 Social media is popularly seen as an important media for people with disability in terms of communication exchange and activism These sites potentially increase both employment and leisure opportunities for one of the most traditionally isolated groups in society However the offline inaccessible environment has to a certain degree been replicated online and particularly in social networking sites Social media is becoming an increasingly important part of our lives yet the impact on people with disabilities has gone largely unscrutinised Similarly while social media and disability are often both observed through a focus on the Western developed and English speaking world different global perspectives are often

overlooked This collection explores the opportunities and challenges social media represents for the social inclusion of people with disabilities from a variety of different global perspectives that include Africa Arabia and Asia along with European American and Australasian perspectives and experiences **Buttonless** Ryan Rigney,2016-04-19 This book presents some of the most interesting iPhone and iPad games along with stories of the people behind these games It describes hundreds of titles including well known games and hidden games and provides insight into the development of games for the iOS platform *Scaling Conversations* Dave MacLeod,2021-03-31 Find out what your customers and employees are really thinking with this indispensable resource *Scaling Conversations How Leaders Access the Full Potential of People* delivers invaluable strategies for how leaders can make their communications more inclusive and access the voices of those employees who rarely feel empowered to speak up As constituent numbers scale leaders have traditionally struggled to make communications a conversation with the entire organization settling instead for small focus groups talking at people in town halls and delivering surveys after the fact The result is exclusive narrow decision making that disengages and under utilizes talent and human capital And now as the remote environment grows the challenge and imperative for engaging conversations on a wider scale is even greater *Scaling Conversations* provides the solution Having led a remote team for over a decade and having worked with thousands of leaders across North America Dave MacLeod teaches you how to Scale your business by listening to the voices that really matter Access and maximize the human capital in your organization Make decisions that create unity and move the group forward Decrease employee turnover caused by poor communication Within these pages you ll learn how to better facilitate conversations with a wider and more representative array of clients and employees and not just the loudest ones in the town hall meeting or Slack channel Perfect for any leader who s responsible for understanding what employees are really feeling and thinking *Scaling Conversations* also belongs on the bookshelves of anyone who wants to learn how to discover what the silent majority who are often drowned out by the loudest people in the room actually believes **Practical R 4** Jon Westfall,2020-06-30 Get started with an accelerated introduction to the R ecosystem programming language and tools including R script and RStudio Utilizing many examples and projects this book teaches you how to get data into R and how to work with that data using R Once grounded in the fundamentals the rest of *Practical R 4* dives into specific projects and examples starting with running and analyzing a survey using R and LimeSurvey Next you ll carry out advanced statistical analysis using R and MouselabWeb Then you ll see how R can work for you without statistics including how R can be used to automate data formatting manipulation reporting and custom functions The final part of this book discusses using R on a server you ll build a script with R that can run an RStudio Server and monitor a report source for changes to alert the user when something has changed This project includes both regular email alerting and push notification And finally you ll use R to create a customized daily rundown report of a person s most important information such as a weather report daily calendar to do s and more This demonstrates how to automate such a process so

that every morning the user navigates to the same web page and gets the updated report What You Will Learn Set up and run an R script including installation on a new machine and downloading and configuring R Turn any machine into a powerful data analytics platform accessible from anywhere with RStudio Server Write basic R scripts and modify existing scripts to suit your own needs Create basic HTML reports in R inserting information as needed Build a basic R package and distribute it Who This Book Is For Some prior exposure to statistics programming and maybe SAS is recommended but not required
