needed during use as the requirements of future events are not known during the initial selection and roll out of the software. This calls for an intensified dialogue between the business and IT to match technical possibilities with practical requirements. Currently adequate means to support this dialogue are lacking. To this end, this dissertation presents a reference model that encompasses the essential processes and data structures in the domain. In 36 application cases, the reference model is instantiated and evaluated. Practitioners and researchers are the intended audiences of this work. Researchers may use it as a foundation to design novel IT artifacts in the domain. Practitioners benefit from the first comprehensive tool to support the design and use of digital technology in event management.

Music for a City Music for the World Larry

Rothe, 2011-07-22 In *Music for a City Music for the World* Larry Rothe shares how the San Francisco Bay Area's love of music, rooted in the Gold Rush, gave birth to a Grammy-winning and internationally acclaimed orchestra. Released in time for the San Francisco Symphony's celebration of its 100th anniversary, this definitive history, replete with hundreds of archival photos and images, gives readers a behind-the-scenes glimpse into one of the world's foremost orchestras and, in so doing, illuminates the cultural life of a city.
