Eye Investing editor of Thoughts from the Frontline www.2000wave.com While Warren Buffett is considered the world's greatest value investor there's another side to Buffett that is rarely talked about. Although Buffett has gained recognition for his value investing approach to the markets the fact is that nobody over the past fifty years has traded and invested with a more diverse group of strategies than Buffett. Trade Like Warren Buffett challenges the current coverage of this great investor by including details of all of Buffett's investing and trading methods including mean reversion, commodities, bonds, arbitrage, market timing, funds, as well as Graham Dodd. To augment the discussion of each strategy Trade Like Warren Buffett also includes interviews with leading financial professionals who reveal in detail how they've successfully used the same techniques. There is no one way to sum up Warren Buffett's investment style. But if you're interested in boosting the performance of your portfolio Trade Like Warren Buffett can show you how.
