Rynne,Clifford J. Mallett,2024-05-24 The Routledge Handbook of Coach Development in Sport is a comprehensive text that underscores the importance of learning and context for those who sculpt the environment in which people of all ages develop in and through sport Coaches and those responsible for the development of coaches are best positioned as both learners and facilitators of learning As sport becomes more globalised the concomitant professionalisation of coaches necessitates ongoing learning and development to embrace new knowledge and understanding Moreover contemporary coach development presents as a wicked problem in that it continues to evolve it is contextually bound and there is no single or obvious way to approach it Problematically there is often limited assistance available to support coaches and coach developers in their ongoing development As such this book provides a truly international reference point that brings together leading scholars and practitioners from across the globe to provide an overview of the theories and practices of coaches and coach developers that are impacting the quality of sporting environments Therefore this book is an important reference for researchers scholars and practitioners alike in the fields of Sport Coaching Coach Development Sport Development Sport for Development Physical Education and related disciplines *The Polish American Encyclopedia* James S. Pula,2010-12-22 At least nine million Americans trace their roots to Poland and Polish Americans have contributed greatly to American history and society During the largest period of immigration to the United States between 1870 and 1920 more Poles came to the United States than any other national group except Italians Additional large scale Polish migration occurred in the wake of World War II and during the period of Solidarity s rise to prominence This encyclopedia features three types of entries thematic essays topical entries and biographical profiles The

essays synthesize existing work to provide interpretations of and insight into important aspects of the Polish American experience The topical entries discuss in detail specific places events or organizations such as the Polish National Alliance Polish American Saturday Schools and the Latimer Massacre among others The biographical entries identify Polish Americans who have made significant contributions at the regional or national level either to the history and culture of the United States or to the development of American Polonia

Disinformation Donald A. Barclay, 2022-04-15 Does the idea of a world in which facts mean nothing cause anxiety Fear Maybe even paranoia Disinformation The Nature of Facts and Lies in the Post Truth Era cannot cure all the ills of a post truth world but by demonstrating how the emergence of digital technology into everyday life has knitted together a number of seemingly loosely related forces historical psychological economic and culture to create the post truth culture Disinformation will help you better understand how we got to where we now are see how we can move beyond a culture in which facts are too easily dismissed and develop a few highly practical skills for separating truth from lies Disinformation explains How human psychology the very way our brains work can leave us vulnerable to disinformation How the early visions of what a global computer network would and should be unintentionally laid the groundwork for the current post truth culture The ways in which truth is twisted and misrepresented via propaganda and conspiracy theories How new technology not only spreads disinformation but may also be changing the way we think The ways in which the economics of information and the powerful influence of popular culture have contributed to the creation of the post truth culture Unlike the far too numerous one sided politically ideological treatments of the post truth culture Disinformation does not seek to point the finger of blame at any individuals or groups instead its focus is on how a number of disparate forces have influenced human behaviors during a time when all of humanity is struggling to better understand and more effectively control for better or worse challenging new technologies that are straining the limits of human intellectual and emotional capacity
