Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1.0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce

shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany's 100% remote job market In a fast changing world digital transformation has become an inevitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks

Corporate Influencer Marketing. Introductory Research and its Applicability as a Recruitment Tool Linda Sibold, 2024-01-30 Seminar paper from the year 2022 in the subject Leadership and Human Resources Employer Branding grade 1.0 University of Cooperative Education Ravensburg course International Human Resource Management language English abstract This paper investigates the effectiveness of corporate influencer marketing as a recruitment tool within the realm of employer branding Faced with challenges such as talent shortages and the impact of COVID 19 organizations are seeking innovative approaches to attract and recruit talent The research focuses on problem statements objectives and methodological approaches delving into the challenges and opportunities associated with corporate influencer marketing Key performance indicators KPIs are identified as crucial metrics for measuring success in this approach The international context is explored emphasizing the need for tailored employer branding strategies to accommodate cultural differences In conclusion the paper suggests that when implemented strategically corporate influencer marketing serves as a viable and sustainable recruitment tool offering opportunities for authentic engagement and differentiation in the competitive job market
