The Ridiculously Simple Guide to Google Apps (G Suite) Scott La Counte, 2020
Master Google Apps
Chances are you grew up a Word and Office user
Maybe you were a rebel and committed your herd to OpenOffice or dare I say WordPerfect but for the majority of people our lives were loyal to Microsoft
In 2005 a small little startup named Upstartle developed something unheard of at the time a web based word processor called Writely
It pioneered the idea of writing on the cloud and changed the way people thought about word processing
Google noticed the little upstart and in 2006 they acquired the company
The software was abandoned and turned into what everyone knows today as Google Docs
It disrupted the industry namely Microsoft s industry
Today Google has a whole suite of productivity apps from documents to spreadsheets you can do just about anything from the cloud
Microsoft and Apple have each made big attempts to create cloud based environments of their own for office productivity but Google pioneered the idea and its collaborative online environment make it hard to beat
It s become so feature rich that many businesses are finding it to be the preferred way to conduct business
If you are thinking about making the switch to Google or have already made the switch but want to make sure you are using it correctly then this guide will walk you through it
It will show you all the basic features to make sure you can get up and running as quickly as possible
It covers Google Drive Google Docs Google Slides Google Sheets Google Forms
