Liminality in Tourism Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism *Liminality in Tourism Spatial and Temporal Considerations* aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal *Tourism Geographies*

Handbook of Technology Application in Tourism in Asia Azizul Hassan, 2022-07-09 It is an undisputed reality that the tourism industry in Asia is getting exposed to more innovative technologies than ever before This proposed book provides the latest research in the application of innovative technology to the tourism industry covering the perspectives innovativeness theories issues complexities opportunities and challenges This book a blend of comprehensive and extensive effort by the contributors and editors is designed to cover the application and practice of technology in tourism including the relevant niches This book focuses on the importance of technology in tourism This also highlights in a comprehensive manner specific technologies that are impacting the tourism industry in Asia as well as the constraints the industry is facing The contents of this book deal with distinct topics such as mobile computing new product designs innovative technology usages in tourism promotion technology driven sustainable tourism development location based apps mobility accessibility and so on A good number of research studies have conducted outlining the contributions and importance of technologies in tourism in general However the tourism industry of Asia so far has attracted very few

researchers Some contributions have been made but not sufficient Considering the ongoing trend of technology application in the tourism industry in Asia very few research attempts have been made aiming to explore diverse aspects Tourism is expanding enormously across the world which actually creates more demands for effective technologies This book will be a reading companion especially for tourism students in higher academic institutions This book will also be read by the relevant policy planners and industry professionals Apart from them this book will be appreciated by expatriate researchers and researchers having keen interest in the Asian tourism industry
