How Bad Are Bananas? Mike Berners-Lee,2020-09-03 It is terrific I can t remember the last time I read a book that was more fascinating and useful and enjoyable all at the same time Bill Bryson *How Bad Are Bananas* was a groundbreaking book when first published in 2009 when most of us were hearing the phrase carbon footprint for the first time Mike Berners Lee set out to inform us what was important aviation heating swimming pools and what made very little difference bananas naturally packaged are good This new edition updates all the figures from data centres to hosting a World Cup and introduces many areas that have become a regular part of modern life Twitter the Cloud Bitcoin electric bikes and cars even space tourism Berners Lee runs a considered eye over each area and gives us the figures to manage and reduce our own carbon footprint as well as to lobby our companies businesses and government His findings presented in clear and even entertaining prose are often surprising And they are essential if we are to address climate change
