Withdrawing and Withholding Treatments Liam Strand, 2025-04-16 When medical treatments are not deemed cost effective given considerations of e.g. needs and severity and therefore denied reimbursement the treatment is commonly withheld from all future patients. However, should the treatment also be withdrawn from patients who have gained early access to it? Previous normative analyses and clinical guidelines suggest that treatments should be equally rationed by both withdrawing and withholding, but empirical studies and policy practices indicate that withholding is more acceptable than withdrawing. It has been suggested that psychological difficulties associated with withdrawing cause this discrepancy, but this remains a hypothesis rather than an experimentally tested explanation. The overall aim of the thesis is to explore ethical and psychological aspects of withdrawing treatments in relation to cost effectiveness, given that withholding is justified. In addition, there is an ambition to formulate ethically justified reimbursement recommendations that account for psychological factors in human judgement and decision making. The specific research questions are: What are physicians and patient organisation representatives' experiences and perceptions of withdrawing and withholding treatments in rationing situations due to relative scarcity? Paper I: To what extent do people express an ethical difference between withdrawing and withholding treatments in reimbursement decisions? Papers II-III: How do different possibly morally relevant circumstances shape support for rationing by withdrawing and withholding? Papers II-III: What could be a balanced and justified approach to withdrawing and withholding treatments in healthcare priority setting? Paper IV: In Paper I, an interview study was conducted with physicians and patient organisation representatives. In Papers II and III, two experiments tested differences in acceptance of rationing treatments by withdrawing and withholding. In addition, Paper II presents the importance of decision level (policy or bedside) while Paper III presents the importance of different potentially morally relevant circumstances previously identified in Paper I. Paper IV presents a normative analysis using a reflective equilibrium process to formulate balanced and justified recommendations on how to withdraw and withhold treatments in reimbursement decisions. Paper I showed nuanced perceptions of withdrawing and withholding treatments. In some respects, the two rationing types were deemed ethically equivalent, while in other respects they were considered ethically inequivalent. Paper II found that 18% of participants accepted withdrawing treatments at the policy level compared to 29% acceptance for withholding treatments at the policy level and 25% acceptance for withdrawing treatments at the bedside level. Paper III found no general difference in acceptance between withdrawing and withholding treatments. However, differences emerged when analysing specific circumstances where withholding was viewed as more problematic than withdrawing in four out of eleven circumstances. Across Papers II and III, the overall support for rationing was low. Paper IV analysed the ethical acceptability of withdrawing

treatments given that withholding is acceptable as well as the ethical acceptability of providing patients with early access to treatments financed by the healthcare system. It is suggested that withdrawing treatments is ethically acceptable but when patients are granted early access a practice where physicians inform patients that the treatment will be withdrawn if it does not get reimbursed is required. The main conclusions of the thesis can be summarised as follows. In some respects treatment withdrawal is deemed as ethically equivalent to withholding while in other aspects it is deemed as ethically more problematic.

Paper I When presented with a detailed vignette of the rationing situation people express withdrawing to be less acceptable than withholding. Paper II However when presented with short and concise statements no general difference is perceived. Paper III Withdrawing is deemed more acceptable at the bedside level than at the policy level. Paper II However different circumstances can render withholding equally and sometimes even more unacceptable than withdrawing. Paper III An ethically balanced and justified approach to withdrawing and withholding treatments is that if withholding is acceptable then withdrawing is too early access is in principle problematic but if early access is to be given physicians must inform patients that the treatment will be withdrawn if it does not get reimbursed.

Paper IV När medicinska behandlingar inte bedöms vara kostnadseffektiva givet att behandlingen exempelvis tagit hänsyn till behov och svårighetsgrad och därmed nekats ersättning så tåls vanligtvis inte behandlingen inför framtida patienter. När behandlingen dock avslutas för patienter som fått tidig tillgång till den tidigare normativa analysen och kliniska riktlinjer föreslås att behandlingar ska avslutas och inte strävas in på ett likvärdigt sätt. Detta visar empiriska studier och policypraxis att det är mer accepterat att inte sträva in på behandlingar än att avsluta dem. En möjlig förklaring är att de psykologiska svårigheterna med att avsluta behandlingar orsakar denna skillnad men inte heller detta bara en hypotes och inte en experimentellt testad förklaring. Syftet med avhandlingen är att utforska etiska och psykologiska aspekter kring att avsluta och inte sträva in på behandlingar i relation till kostnadseffektivitet givet att det är acceptabelt att inte sträva in på behandling. Det finns även en ambition om att formulera etiskt riktiga rekommendationer vid ersättningsbeslut som tar hänsyn till psykologiska faktorer i medicinskt omdöme och beslutsfattande. De specifika forskningsfrågorna är: Vad är läkarens och patientorganisationsrepresentanters erfarenheter av och uppfattningar om att avsluta och inte sträva in på behandlingar i ersättningsbeslut kopplade till relativ knapphet. Delstudie I I vilken utsträckning uttrycker folk en etisk skillnad mellan att avsluta och inte sträva in på behandlingar i ersättningsbeslut. Delstudier II III Hur påverkar olika potentiellt moraliskt relevanta omständigheter såsom att ransonera genom att avsluta och inte sträva in på behandlingar. Delstudier II III Vad skulle vara ett balanserat och riktigt tillvägagångssätt att avsluta och inte sträva in på behandlingar inom hälso- och sjukvårdsprioriteringar. Delstudie IV I Delstudie I genomfördes en intervjustudie med läkare och patientorganisationsrepresentanter. I Delstudie II och III genomfördes två experimentella studier som testade skillnader i acceptans för att ransonera behandlingar genom att avsluta och inte sträva in på. Delstudie II undersökte även vikten av beslutsnivå policy eller patientnära medan Delstudie III undersökte vikten av olika potentiellt moraliskt relevanta omständigheter som tidigare identifierats i Delstudie I. I Delstudie IV genomfördes en normativ

analys genom att använda sig av en reflektivt ekvilibrium process för att formulera rekommendationer om att avsluta och inte sätta in behandlingar i samband med ersättningsbeslut Delstudie I visade nyanserade uppfattningar om att avsluta och inte sätta in behandlingar i vissa aspekter sågs det tydligt att ransonera behandlingar som etiskt likvärdiga medan i andra aspekter sågs de som etiskt olikvärdiga Delstudie II visade att 18% ansåg det acceptabelt att avsluta behandlingar på policyniv jämfört med 29% som accepterade att inte sätta in behandlingar på policyniv och 25% som accepterade att avsluta behandlingar på en patientnära nivå Delstudie III visade ingen generell skillnad i acceptans mellan att avsluta och inte sätta in behandlingar Däremot framkom det skillnader när specifika omständigheter analyserades där att inte sätta in sågs som mer problematiskt när att avsluta under fyra av elva omständigheter Genom Delstudie II och III var det generella sett det för ransonering lågt Delstudie IV analyserade den etiska acceptansen av att avsluta behandlingar givet att det är acceptabelt att inte sätta in Studien undersökte också den etiska acceptansen av att ge patienter tidig tillgång till behandlingar som nansieras av hälso och sjukvårdssystemet Det föreslås att avsluta behandlingar är etiskt acceptabelt men när patienter får tidig tillgång behövs även en praktik där läkaren informerar patienten om att behandlingen kommer att avslutas om behandlingen får ett negativt ersättningsbeslut Avhandlingens huvudslutsatser kan sammanfattas som I vissa aspekter ses avslut och inte sätta in som etiskt likvärdiga medan i andra aspekter ses avslut som etiskt mer problematiskt Delstudie I När folk presenterade för en vinjett som beskriver en ransoneringssituation uttrycker de att avsluta är mindre acceptabelt när att inte sätta in Delstudie II När folk presenterade för korta och koncisa påstenden uttrycker de ingen generell skillnad Delstudie III Att avsluta behandlingar är mer acceptabelt på en patientnära nivå än på policyniv Delstudie II Däremot under vissa omständigheter kan inte sätta in vara likvärdigt och ibland även mer oacceptabelt när att avsluta Delstudie III Ett etiskt balanserat och rättfärdigat tillvägagångssätt att avsluta och inte sätta in behandlingar är om inte sätta in är acceptabelt så avsluta också det tidig tillgång är i princip problematiskt men om tidig tillgång ska ges måste läkaren informera patienter om att behandlingen kommer att avslutas om den får ett negativt ersättningsbeslut Delstudie IV

Modern Wedding Planning Essentials: Vendor Negotiation Tips Jade Summers, Planning your dream wedding can be thrilling but negotiating with vendors often feels overwhelming and stressful What if you could transform this challenge into your greatest advantage Modern Wedding Planning Essentials Vendor Negotiation Tips is your ultimate guide to confidently navigating vendor deals and unlocking significant savings Whether you're an engaged couple or a professional wedding planner this book equips you with clear practical and proven strategies to negotiate like a pro Inside you'll discover step by step advice real life examples and expert insights that empower you to secure unbeatable prices without sacrificing quality Learn how to build strong win win relationships with florists caterers photographers and more ensuring your big day is perfect and within budget Join thousands of readers who have transformed their wedding planning experience by mastering negotiation skills that deliver real results Imagine feeling confident in control and excited as you close every vendor deal Don't let uncertainty or overpriced vendors hold you back Unlock the secrets to savvy negotiation

Early Access Deals Price Setup Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Early Access Deals Price Setup free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Early Access Deals Price Setup free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Early Access Deals Price Setup free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Early Access Deals Price Setup. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic

literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Early Access Deals Price Setup any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Early Access Deals Price Setup Books

What is a Early Access Deals Price Setup PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Early Access Deals Price Setup PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF.

How do I edit a Early Access Deals Price Setup PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Early Access Deals Price Setup PDF to another file format?**

There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Early Access**

Deals Price Setup PDF? Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.

supervised machine learning based wind prediction to enable - Oct 30 2022

web jan 4 2021 this research aims to yield a continuous wind prediction model by combining a supervised learning algorithm with the inverse distance weighting technique specifically this research compares three different supervised learning algorithms that include gaussian process multi layer perceptron and support vector machine to

physics informed machine learning for wind speed prediction - May 25 2022

web apr 1 2023 here we take an alternative data driven approach based on supervised learning we analyze massive datasets of wind measured from anemometers located at 10 m height in 32 locations in central and north west italy we train supervised learning algorithms using the past history of wind to predict its value at future horizons

wind power forecasting with deep learning networks time - Mar 03 2023

web nov 3 2021 to investigate the forecast accuracy of day ahead for wind turbines measured with a performance evaluation index i.e. mape we developed a feature based learning model for wind power forecasting and trained tcns 20 21 22 23 to learn meteorological features and identify the output class of power generation

pdf supervised machine learning in wind forecasting an - Feb 02 2023

web supervised machine learning in wind forecasting an python machine learning aug 03 2021 applied machine learning with a solid foundation in theory revised and expanded for tensorflow 2 gans and reinforcement learning purchase of the print or kindle book includes a free ebook in the pdf format

2204 00495 physics informed shallow machine learning for wind - Apr 23 2022

web apr 1 2022 we train supervised learning algorithms using the past history of wind to predict its value at a future time horizon using data from a single location and time horizon we compare systematically several algorithms where we vary the input output variables the memory of the input and the linear vs non linear learning model

frontiers applications of machine learning to wind engineering - Jul 27 2022

web mar 16 2022 to reduce the demand for labelled data in ml applications to wind engineering both unsupervised learning and semi supervised learning including physics informed machine learning are promising alternatives to

two supervised machine learning approaches for wind velocity - Jun 25 2022

web sep 1 2020 of the two approaches we found that lstm proved to be the most capable supervised learning model during more capricious wind conditions and made competent windspeed predictions with an average root mean square error of 0.61 m/s averaged across two drones when trained on at least 20 min of flight data

physics informed machine learning for wind speed prediction - Sep 28 2022

web jan 7 2023 here we take an alternative data driven approach based on supervised learning we analyze massive datasets

of wind measured from anemometers located at 10 m height in 32 locations in central and north west italy we train supervised learning algorithms using the past history of wind to predict its value at future horizons

supervised machine learning in wind forecasting and ramp - Apr 04 2023

web doi 10 1016 c2019 0 03735 1 corpus id 243569487 supervised machine learning in wind forecasting and ramp event prediction inproceedings 2020supervisedm1 title supervised machine learning in wind forecasting and ramp event prediction author year 2020

an interdisciplinary machine learning approach for wind speed - Feb 19 2022

web wind speed forecasting for the specified heights using rnn lstm and gru ii the proposed computational models based on ai by supervised machine learning elucidate the wind speed behavior and allow accurate wind speed prediction at different anemometric heights e g 10 0 m 25 70 m 81 80 m and 101 80 m

learning based short term wind speed forecasting models for - Aug 28 2022

web sep 1 2023 based on historical study learning models are classified into two subclasses e g classical machine learning and advanced machine learning as shown in table 3 ordinary least square regression models deep learning and ensemble learning models have supervised learning models

supervised machine learning in wind forecasting and ramp event - Jul 07 2023

web supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge

supervised machine learning in wind forecasting and ramp - Oct 10 2023

web supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge various regression models and signal decomposition techniques are presented and

jmse free full text machine learning based approach to wind - Mar 23 2022

web nov 4 2023 as wind energy continues to be a crucial part of sustainable power generation the need for precise and efficient modeling of wind turbines especially under yawed conditions becomes increasingly significant addressing this the current study introduces a machine learning based symbolic regression approach for elucidating

data augmented sequential deep learning for wind power forecasting - Jan 01 2023

web nov 15 2021 this paper initially scrutinizes the usefulness of data augmentation approaches in wind power forecasting and proposes a multi input and multi output prediction algorithm with verified superiority inferences on the results of multistep forecasting five wind turbines with various topologies conclusions are given as follows

supervised machine learning in wind forecasting and ramp - Sep 09 2023

web jan 20 2020 supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview of the broad area of wind generation and forecasting with a focus on the role and

supervised machine learning in wind forecasting and ramp - Jun 06 2023

web description supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine

supervised machine learning in wind forecasting and ramp - May 05 2023

web jan 21 2020 description supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge

supervised machine learning in wind forecasting and ramp - Nov 30 2022

web jan 21 2020 supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge various regression models and signal decomposition techniques are

supervised machine learning in wind forecasting and ramp - Aug 08 2023
