Taking Care of Our Minds

Taking Care of Our Minds

Our minds are like gardens that need love and care. Just like we eat fruits and vegetables to keep our bodies healthy, we also need to do things to keep our minds healthy. This is called mental health.

What are some things we can do to take care of our minds? One important thing is talking about our feelings. When we feel sad, mad, or worried, it helps to talk to someone we trust, like a family member or a teacher.

Another way to keep our minds healthy is by doing things we enjoy, like playing outside, drawing, or reading books. Taking breaks from screens and spending time with friends and family can also make us feel good inside.

Remember, it's okay to feel different emotions, and taking care of our minds is just as important as taking care of our bodies. Let's all work together to keep our minds healthy and happy!

Balancing the Big Stuff Miriam Liss,Holly H. Schiffrin,2014-08-07 While the current conversation about work family balance and having it all tends to focus on women both men and women are harmed when conditions make it impossible to balance meaningful work with family life Yet both will benefit from re evaluating what it means to have it all and fighting for changes in their relationships and society to make greater equality possible Here Miriam Liss and Holly Hollomon Schiffrin discuss the ways in which we all define having it all and how we can obtain it for ourselves through a better evaluation of what we want from ourselves our families our jobs and each other Determining a 50 50 division of labor around the house may not be the thing that works for everyone Working from home or not at all may not be the thing to bring us satisfaction but learning what studies show and how to feel balanced and make those decisions to bring balance is crucial The authors argue that people can find balance in their roles by doing things in moderation Although being engaged in both parenting and work is good for well being people can avoid the pitfalls of over parenting and over working They show that balance can come from a meaningful consideration of what happiness and contentedness mean to us as individuals and how best to achieve our goals within the limitations of our current circumstances They illustrate that balance is not simply an individual problem Social issues such as the lack of parental leave flexible work schedules and affordable high quality child care make balance difficult With attention now on the issue they argue that it s time men and women advocate for better services and better opportunities to achieve balance happiness and success in all their roles
