This is the road map to a seven figure business in one year or less. The word entrepreneur is today's favorite buzzword and any aspiring business owner has likely encountered an overwhelming number of so called easy paths to success. The truth is that building a real profitable sustainable business requires thousands of hours of commitment, grit and hard work. It's no wonder why more than half of new businesses close within six years of opening and fewer than 5 percent will ever earn more than 1 million annually. 12 Months to 1 Million condenses the startup phase into one fast paced year that has helped hundreds of new entrepreneurs hit the million dollar level by using an exclusive and foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand new entrepreneurs make decisions quickly get their product up for sale and launch it to a crowd that is ready and waiting to buy. This one year plan will guide you through the three stages to your first 1 million. The Grind Months 0-4. This step by step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding and take your first sale within your first four months. The Growth Months 5-8. Once you're in business you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day so you can prove you have a profitable business. The Gold Months 9-12. It's time to establish series of products available for sale until you are averaging at least 100 sales per day getting you closer to the million dollar mark every single day. Through his training sessions at [Capitalism.com](http://Capitalism.com) Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven figure barrier many of whom go on to sell their businesses. If your goal is to be a full time entrepreneur get ready for one chaotic stressful and rewarding year. If you have the guts to complete it you will be the proud owner of a million dollar business and be in a position to call your own shots for life. Globalization has brought with it fiercer competition and greater worker mobility and as organizations compete for top talent they are becoming more open to unconventional worker arrangements such as remote working and flextime. International business expert Robert Grosse draws on scholarly research to construct an appealing argument for why the four day workweek benefits both the organization and the employee. Research has demonstrated that longer work hours harm the individual and don't amount to a more effective organization which begs the question then why do it. The book goes beyond merely arguing that a reduced workweek is a good idea. It delves into why explores the means for achieving it and scrutinizes
