Innovations and Social Media Analytics in a Digital Society Maria José Sousa, Célio Gonçalves Marques, 2022-06-15 Recent advances in digitization are transforming healthcare education tourism information technology and some other sectors. Social media analytics are tools that can be used to measure innovation and the relation of the companies with the citizens. This book comprises state of the art social media analytics and advanced innovation policies in the digitization of society. The number of applications that can be used to create and analyze social media analytics generates large amounts of data called big data including measures of the use of the technologies to develop or to use new services to improve the quality of life of the citizens. Digitization has applications in fields from remote monitoring to smart sensors and other devices. Integration generates data that need to be analyzed and visualized in an easy and clear way that will be some of the proposals of the researchers present in this book. This volume offers valuable insights to researchers on how to design innovative digital analytics systems and how to improve information delivery remotely. *Platforms, Power, and Friction* Pawel Popiel, Krishnan Vasudevan, 2025-06-24 This edited book deconstructs the myth of frictionless digital platform expansion revealing the persistent platform frictions that shape platform economies and politics. Through a series of case studies it explores how despite universal aspirations big tech's drive for global expansion and appeal is realized only

through encounters with diverse local contexts It is in these frictional encounters that the exact contours of platform power and dominance are negotiated The collection examines how frictions arising in key domains like policy platform design gig labor and platform market relations can both contest and reinforce platform power From user pushback to platform policy changes to the challenges facing platform cooperatives the case studies explore the nuanced realities of actually existing platformization illustrating how local adaptations and resistances shape expanding digital platforms services economies cultures and ideologies This volume contributes an urgent and critical perspective to platform studies foregrounding local power dynamics values and cultures that give the platform economy its actually existing forms It is essential reading for anyone seeking a deeper understanding of the complexities and contingencies in the age of global platform dominance It was originally published as a special issue of Information Communication Society

Digital Populism and the Use of Neo-Propaganda and Fake News Vieira, Andreia Teles, Joaquim, Ana Filipa, Duarte, Alexandre, 2025-05-07 As populism grows across global democracies the integration of new technologies has significantly amplified the use of propaganda techniques and the spread of fake news Tools like social media and artificial intelligence AI make digital technologies privileged vehicles for populist communication Due to the use of fallacies propaganda is confused with fake news though these techniques are broader and based on political strategies to manipulate public opinion With the advent of new technologies and the ever increasing incorporation of AI into social life political parties are facing a form of two way communication without intermediaries meaning they can directly reach and influence the public with reduced costs Understanding the social impact of digital propaganda may help foster political literacy among civil society Digital Populism and the Use of Neo Propaganda and Fake News explores various populist parties aiming to identify and understand their use of propaganda and fake news It provides a comprehensive global vision of populism in different nations and examines the communication strategies based on propaganda and disinformation Covering topics such as social media computational propaganda and political rhetoric this book is an excellent resource for political analysts journalists sociologists government officials policymakers researchers academicians and more
