Philadelphia Business Journal Book of Business Lists, 2003 Taking Time Off Colin Hall, Princeton Review (Firm), 2003 Have you ever thought about taking time off to ride your bike across the United States conduct research in the Amazonian rain forest work on a presidential campaign build houses for the poor Tens of thousands of students each year take a break before or even during college to work travel volunteer or do something just plain different No matter what you may plan to do with your time away Taking Time Off shows you how to make the most of it Included are the inspiring stories of 26 students whose pursuits in their time away from school were fulfilling and enjoyable You'll find practical advice on every aspect of planning a break from researching your options and financing your leave to convincing your parents it's a worthy idea This book's resources section also lists programs jobs and American and international organizations that can help you to plan your own time off In Pursuit of Knowledge Deborah Rhode, 2006-09-25 Although academics have never lacked for critics publications on the profession tend to be either popularized polemics which are engaging but misleading or scholarly analyses which are intellectually responsible but of little interest to anyone but specialists In Pursuit of Knowledge offers an alternative a unique portrait of academic life that should appeal to both experts and a general audience Drawing on a wide range of disciplines including higher education history law sociology economics and literature the book focuses on the ways in which the pursuit of status has undermined the pursuit of knowledge Deborah Rhode argues that both individual scholars and institutions in higher education are caught in an arms race of reputation The result has been to skew priorities in scholarship erode commitments to teaching compromise efforts of public intellectuals and impede effectiveness in administration The book offers several solutions to counter these pervasive problems in our research institutions Rhode

makes a case for increasing accountability and realigning reward systems She argues that what is needed is a greater sense of responsibility among universities and their faculties to narrow the gap between academic ideals and practices In Pursuit of Knowledge is meticulously researched and elegantly written It is also exceptionally entertaining in its use of quotations culled from over a hundred academic novels including works by Kingsley Amis Saul Bellow David Lodge and C P Snow For example from P G Wodehouse s The Girl in Blue The Agee woman told us for three quarters of an hour how she came to write her beastly book when a simple apology was all that was required The result is a highly readable but also deeply reflective analysis of the academic profession Business School and the Noble Purpose of the Market Andrew J. Hoffman, 2025-04-08

The intellectual foundation for the next generation of business leaders Today s business schools were designed for a world that no longer exists Capitalism raised the standard of living for billions of people over the past 150 years but is now causing systemic challenges it is unable to address including climate change and inequality And yet business schools continue to teach ideas that are making things worse elevating the primacy of shareholder profits above the interests of employees the environment and society viewing government as an intrusion on the free market rather than an arbiter of its proper functioning and promoting unlimited economic growth despite the devastating environmental and social consequences Business schools cannot simply drop an elective into their curriculum to address these challenges We must rethink the faulty foundations Business School and the Noble Purpose of the Market explains the intellectual foundation MBA students faculty and administrators need to reform capitalism and restore its noble purpose for the 21st century Many business students are in fact seeking this kind of education and frustrated that they are not getting it from their professors This book will fill in gaps in their education equipping them with the models and mindset to rethink shareholder capitalism and serve society s needs Business faculty and administrators will find a practical program for amending curriculum and pedagogy changing student and faculty rewards and bringing a new spirit and sensibility to the business school **The Business School Buzz Book** Vault Editors, 2006-02-07 In this new edition Vault publishes the entire surveys of current students and alumni at more than 100 top business schools Each 4 to 5 page entry is composed of insider comments from students and alumni as well as the school s responses to the comments
