realise a creative city with a small c *OECD Environmental Performance Reviews: Austria 2013* OECD,2013-11-06 This report is the third OECD review of Austria's environmental performance The report evaluates Austria's progress towards sustainable development and green growth with a focus on chemicals management and climate change adaptation

The green deal Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2013-05-22 Three years into the life of this Parliament Ministers are unable to define what they hope to achieve through one of the Coalition's flagship policies It's impossible to assess policy if the Government itself cannot explain precisely what it is hoping to achieve At a time when gas and electricity bills are on the rise improving the energy efficiency of our homes could not be more important The Committee plans to monitor progress of the Green Deal over the coming years This report sets out seven key areas in which it will focus its scrutiny public awareness and communications take up levels energy and carbon savings financial savings and value for money access to the Green Deal and ECO customer satisfaction and supply chain and job creation It identifies a number of potential challenges which could lead to low take up of the Green Deal For example people in rented accommodation might have difficulty gaining consents from their landlords households might find the hassle of

building works too much to want to upgrade their property or cheaper sources of finance might be available from other sources If take up levels are low it will be important to understand why this is so that the policy can be improved The report calls on the Government to publish information showing how well the Green Deal is progressing The Committee also says that DECC should seek opportunities to collaborate with research organisations to maximise its understanding of whether the scheme is working well
