 While it is a truism that emerging technologies present both opportunities for and challenges to their host communities the legal community has only recently begun to consider their significance On the one hand emerging information bio nano and neurotechnologies challenge policy makers who aspire to put in place a regulatory environment that is legitimate effective and sustainable on the other hand these same technologies offer new opportunities as potentially powerful regulatory instruments In this unique volume a team of leading international scholars address many of the key difficulties surrounding the regulation of emerging technological targets as well as the implications of adopting technology as a regulatory tool How should we rise to the challenge of regulating technologies How are the regulatory lines to be drawn in the right places and how is the public to be properly engaged How is precaution to be accommodated and how can the law keep pace with technologies that develop ahead of the regulatory environment How readily should we avail ourselves of the opportunity to use technology as a regulative strategy How are we to understand these strategies and the challenges which they raise To what extent do they give rise to similar policy problems accompanying more traditional regulatory instruments or generate distinctive challenges While the criminal justice system increasingly relies on technological assistance and the development of a surveillance society is a regulatory regime that rules by technology compatible with rule of law values

Per Anhalter durch das Mitmach-Web Jörg Kantel, 2009 Jörg Kantel hat viele Interessengebiete, bei denen er gern in verschiedenen parallel geführten Weblogs schreibt. Hauptberuflich ist er EDV-Leiter an einem Max Planck Institut, was im vorliegenden Band aber gar nicht erwähnt wird. Er will zeigen, wie man die zahlreichen meist kostenlosen Internet Angebote nutzen kann, um sich schnell und ohne Mühe eine eigene Website zuzulegen. Das ist aber nicht wirkliches Ziel des Autors; er schafft es, so viele Anregungen, Tipps, Erklärungen und Anleitungen in diesen Band zu packen, dass selbst Internet-Muffel Lust bekommen werden, sich doch mit den Verlockungen des Web 2.0 zu beschäftigen. Kantel benutzt dazu Beispiele, die er auch selbst in seinen Blogs anspricht: Seiten über Hundesport, eine Bürgerinitiative bis hin zu eigenen TV-Ausstrahlungen. Das wird alles gekonnt erläutert, aber auch mit vielen anderen Internet-Themen angereichert: z.B. HTML und Programmiersprachen, sodass jeder interessierte Internetnutzer, ob Junior oder Senior, davon profitieren kann. Dazu sollten ihnen möglichst viele Bibliotheken verhelfen. 1 S
