You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit's r/NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple *You Should Quit Reddit* is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit's flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

Share Power Merryn Somerset Webb, 2022-01-20 Lively, intelligent and packed with revelations, *Share Power* explains how even the smallest of investors can make themselves heard. A copy of this book should be on the desk of anyone with a pension. Allister Heath, Editor, The Sunday Telegraph. In this scintillating book, award-winning financial commentator Merryn Somerset Webb reveals a much overlooked fact: every share we own comes with a vote. What few people know is that we can use these votes to influence company decisions on everything from executive pay to corporate strategy. Delving deep into the world of corporate capitalism from the privatisation of state-owned companies in the 1980s to the financial crash of 2008 and the growth of the modern multinational, *Share Power* shows us how capitalism went wrong and how, with six simple recommendations, every one of us now has the power to make it work for us. The Titanic Effect Todd Saxton, M. Kim Saxton, Michael Cloran, 2019-03-05 I have read dozens of books on starting companies, but this is the first that accurately captures why startups fail and provides a tool for entrepreneurs and investors to measure and manage these sources of failure. Michael Hatfield, Co-Founder, Cerent. Calix Cienna and Carium. What makes a startup successful? This book from award-winning business school professors and a tech serial entrepreneur tells what makes startups successful. Instead of telling startups what to do like most startup books, they share what startups should avoid. Along the way, they share small business startup success stories gleaned from the *How Built This* Podcast and their firsthand experiences. These stories of startup success are contrasted with stories of startup failure from startup graveyards and most notably the Titanic. Like many of today's startups, the Titanic hoped to disrupt the transportation industry of its time. It fell short to a disastrous outcome from the same sources that prevent startup success today. Get a startup game plan. This startup book uses the Titanic and a sailing metaphor to provide a startup roadmap template. It shows what makes startups successfully navigate through challenges in startup investing, founding, and hiring with a game plan to get through the Human Ocean. It offers a startup guide to customer success in working through the Marketing Ocean. It even highlights what startups need to invest in to get through the Technical and Strategy Oceans. Its Iceberg Index gives entrepreneurs, startups, and small businesses a way to track their progress on the startup roadmap template. It also helps investors assess what startups to invest in. Many entrepreneurs assume that the Titanic was sunk by a single iceberg. The *Titanic Effect* shows that like many startups, it's not a single misstep but a series of mistakes that keep a startup from being successful. This combination of missteps is called the *Titanic Effect*. Who can benefit from this startup roadmap? Entrepreneurs in the early stages of building a startup. They will learn what

makes a startup successful They will develop a to do list of decisions to make and actions to take Small business owners will also identify key next steps to building their startup game plan Investors can identify what to avoid in startup investments and what startups to invest in Students will learn how to evaluate the success potential of a startup and will read small business and startup success stories These three co authors have witnessed firsthand what leads to startup success They have made it their mission to help entrepreneurs startup founders and startup investors succeed Drs Todd and M Kim Saxton bring more than two decades of academic and professional experience in business strategy entrepreneurship marketing and angel investing Serial tech entrepreneur Michael Cloran adds his two decades of experiences in launching his own startups as well as building software products for other startups In addition the co authors serve on various boards of entrepreneurial ventures and startup advisory associations They have shared their expertise from the stage to dozens of audiences including students entrepreneurship and professional development associations academic societies and global companies like Roche Diagnostics and Pfizer Pharmaceuticals
